### SLENDERIZINGLY SMART

Pattern 8281—Attractively smart and simple is this design made specially for the larger woman. Every line contributes to the slenderizing

effect—from the surplice closing to the pointed yoke in the front and back of the skirt.

In the sketch the upper part is of all-over lace attached in pointed outline to the dress of net or chiffon. But one may combine other materials and contrasting colors. A pastel colored yoke and sleeves combined with black would be flattering to the beauty of the face and slenderizing to the figure. It is a frock easily cut and made.

Easier than scouring dirty pots, add a little washing soda to water and boil it. It saves work and saves the pots.

After washing cut glass in hot soapsuds, leave them to drain. When they're dry, use a Turkish towel to polish them. The Turkish towel gets into the cuts readily and leaves no lint on the glass.

Use old tissue paper to wipe grease from pots and pans. It saves many washings of dish cloths and dish towels.

Clean windows with a rag dipped in paraffin and you'll have a brilliant high polish. Use tissue or any soft paper for a polisher.

#### CHURCH CONDUCT By Troy Horn

We go to church for many reasons. In Winter, Spring and Summer seasons—Women, men, and boys and girls. In different rows and different pews.

We, of course, are not all smart. Though every one should do his part—

Teach or preach, or sing, or pray. Until we reach the judgment day.

But what I cannot understand. In this wise, glorious, happy land. Is why some boys in the pew. Will leave before the service's through.

If I were in that frame of mind. To take my seat way back behind. I'd try to keep my head at least. As level as a civil beast . . .

And not be in and out and up. Like some old silly, sickly pup. I'd just say to my ignorant chums, "I'm done with you, you trifling bums."

Two-thirds boracic acid and one-third powdered sugar sprinkled on shelves and baseboards will kill roaches and water bugs. The combination is poisonous to them.

Cover your kitchen table with linoleum instead of oilcloth when your old cover wears out. It will last much longer and cleans just as easily.
