SMART JUMPER DRESS Pattern 8319.

The smart young girl will adore this jumper dress because she can wear gay blouses with it. What's more, mother will like it because jumpers are so practical.

You could really make several jumpers from the same pattern. One jumper could be in bright plaid with a white blouse, or a light color matching one of the colors in the plaid. Perhaps you would want another, using a light or dark plain material for the jumper with a printed blouse.
