What is the yardstick for a cigarette...

Take mildness for one thing—how does it measure up for mildness?

Chesterfields are *milder*—not flat or insipid, of course, but with a pleasing flavor.

Then take taste for another thing—does it have *plenty* of taste?

Chesterfields taste *better*—not strong but just right.

In other words, They Satisfy—
that's my yardstick for a cigarette.

Chesterfield... the cigarette that's *MILDER*
Chesterfield... the cigarette that *TASTES BETTER*
