**ANTISEPTIC**

Don't be satisfied with ordinary baby powders that are not antiseptic. Without paying a cent more you can get Mennen Antiseptic Powder—which not only does everything that other baby powders do, but also sets up an antiseptic condition all over baby's skin and fights off germs and infections. It stops chafing and rawness, too. So get a tin of Mennen Antiseptic Powder at your druggist's today.

MENNEA Antiseptic POWDER

**Watch Your Kidneys!**

Be Sure They Properly Cleanse the Blood

**YOUR** kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained.

Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all upset.

Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

**DOAN'S PILLS**

**Now Ease Neuritis Pains Fast**

**Bayer Tablets Dissolve Almost Instantly**

In 2 seconds by stop watch, a genuine BAYER Aspirin tablet starts to disintegrate and go to work. Drop a Bayer Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass . . . happens in your stomach.

**For Amazingly Quick Relief Get Genuine Bayer Aspirin**

If you suffer from pains of neuritis what you want is quick relief.

Genuine Bayer Aspirin tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly they touch moisture. (Note illustration above.)

Hence—when you take a real Bayer Aspirin tablet it starts to dissolve almost as quickly as you swallow it. And thus is ready to start working almost instantly . . . headaches, neuralgia and neuritis pains start easing almost at once.

That's why millions never ask for aspirin by the name aspirin alone when they buy, but always say "BAYER ASPIRIN" and see that they get it.

Try it. You'll say it's marvelous.

**TODAY and TOMORROW**

FRANK PARKER STOCKBRIDGE

**RELIEF** . . . an idea

One of my neighbors made a suggestion the other day of a way to cut down the number of persons on relief. "Publish the names of all who are being supported by the taxpayers," he said. "Post them on the bulletin board in every Post Office and Town Hall, and the amount they are getting from the public funds."

I think that is an idea worth considering. Once everybody in the community knew who was being paid for not working, and how much, a good many would be shamed into taking work when it was offered.

The cost of relief can never be cut so long as folk find it easier and more comfortable to live without working. I have no sympathy with the principles of Communism, but I was impressed the other day when I read that Stalin, the dictator of Russia, had issued an edict that "he who does not work shall not eat." That was the rule of the Plymouth Colony. It is the only sound basis on which any social order can long endure.

**VOTES** . . . aliens

Another neighbor made another suggestion, which interested me and the rest of the group who were discussing the relief situation. "Don't let 'em vote," he said. "Probably it can't be done, but suppose the state should pass a law disfranchising everybody who is being supported at public expense."

Nobody knows exactly how many people are drawing relief money, with or without working for it. One of the reasons, I am told, why the taking of an unemployment census has been delayed, is the belief that it would disclose the fact that a million or two aliens, illegally in this country, are living at the expense of American taxpayers.

That would put it up to us to send them back where they came from, which can't be done for two reasons. We haven't ships enough, and the countries of their origin wouldn't let 'em land.

**MINERALS** . . . ownership

Who owns the mineral resources of the nation? In Pennsylvania and in California that question is up again. The big anthracite coal companies of Pennsylvania shut down many mines. Unemployed miners and others have been working these mines and making a living selling "bootleg" coal. Public sentiment has kept the authorities from interfering with them. Governor Earle says he wants to have the coal declared public property, so that anyone can mine it under license from the state.

In California many oil wells are away out under the Pacific Ocean. The State claims ownership, and some oil operators pay the state for the right to take out the oil. Now the Federal government says California doesn't own the ocean or the oil under it, but it is the property of the nation.

The New York law is that all mineral deposits belong to the state. Regardless of who owns the surface land, anyone can file a mining claim by agreeing to pay the state one-quarter of the revenue from it. That seems like good sense to me.

**FLOWERS** . . . growers

I've bought (or wife has, which comes to the same thing) a good many hundreds of packages of flower seeds in a lifetime. Some of them "came up" and bore flowers which more or less resembled the picture on the package or in the catalogue—and lots of 'em didn't!

Ever have that happen to you? The State of New York has a new law which puts a penalty on anyone selling flower seeds whose blossoms don't match the pictures. I don't know whether this will result in toning down the pictures or improving the seeds, but to me it seems as important to protect the flower grower as anyone else. The more flower gardens the better.

**GRASSHOPPERS** . . . this year

Just as the farmers of America

**Hello, Daddy**

FLINT, Mich. . . . Dionne, 2½, and Dick, 6, insisted until Mrs. Mary Tigner brought the two children down to the automobile factory where daddy Tigner was on a "sit-down" strike, with thousands of other fellow workers. The strike has since spread throughout the industry.

**Secret Service Head**

WASHINGTON . . . A new picture of Frank J. Wilson, 50, now head of the Secret Service, succeeding Wm. H. Moran, retired, who served 54 years. Wilson has been acting chief since Sept. 8, 1936.

have begun to look forward to the largest wheat crop on record for 1937, the Bureau of Entomology comes along and takes the joy out of life by predicting the world's largest crop of grasshoppers for this year, in most of the wheat-growing states.

They've been counting grasshopper eggs—not all of them, of course, but enough in selected samples of earth to give an idea of the total—and the result is pessimistic for all of the wheat states except Minnesota, Wisconsin and Michigan.

Which indicates again that if Mother Nature is left alone she will find her own way to solve the problem of crop control.

**Seeds Should be Bepth Dry While in Storage**

Crop seeds protected from dampness in storage will have a better chance of germinating and producing strong plants even when handicapped by unfavorable weather.

Dampness in storage has a tendency to start the germinating process, and this weakens the seed, explained Dr. R. F. Poole, plant pathologist with the N. C. agricultural experiment station.

Irish potatoes stored in banks should be aired frequently to prevent decay.

Corn, small grain, and other seed should be kept in leak-proof buildings with adequate ventilation to prevent the accumulation of too much moisture.

However, this does not mean that the seed should be openly exposed to infestation by insect pests, Dr. Poole cautioned.
