

WPA BUILDING COUNTY ROADS

(Continued from Page One)

use of crushed stone, this stone also being quarried by us.

"The works progress administration is opening many mountain roads and making them passable in all sorts of weather where no statistics in terms of miles would show the commensurate benefits, for many roads are rendered impassable in bad weather either by improper drainage or perhaps by one small section of the road which is bad. In many such places we have repaired the offending spot, and where necessary have dug drainage ditches or graded the road, thus by rebuilding a fraction of a mile making the entire length of the road useable at all times.

Farm-to-market road projects are perhaps the most important and far-reaching of those carried on by the WPA. The Grange, the Farm Bureau Federation, and practically every other agricultural group in North Carolina have urged their construction.

The fifth district of the North Carolina works progress administration, with a total of 27 farm-to-market road projects, has completed 704.1 miles of highway. Relief laborers employed in this work total 3,547, and federal expenditures to date amount to \$853,299.68. Over seven hundred miles of highway is now under construction. This district, which has headquarters at Asheville, embraces the western counties of Avery, Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, Mitchell, McDowell, Polk, Rutherford, Swain, Transylvania and Yancey.

OREGON (PA)—Oregon has every character of climate and soil known to the temperate zone; from desert to densely vegetated coast areas where rainfall is abundant.

SALT LAKE CITY, UTAH (PA)—The Latter Day Saints, as the Mormon Church members call themselves, number three-fourths of all church membership in Utah.

SENATE PASSES LIQUOR BILL

(Continued from Page One)

shall make such rules in accordance therewith as they may deem necessary."

Commissioners' Fees

Another bill, sponsored by Representative Patton and referred to the house committee on salaries and fees, repeals chapter 96 of the 1933 public-local laws, and provides that "the members of the board of county commissioners of Macon county shall receive the sum of \$4 per day and five cents per mile in going to and from the place of meeting for each day in which they are in session not exceeding 10 days in each month. The said commissioners shall also be allowed actual expenses when being engaged in business for the county when it is necessary for them to go outside of said county."

Senate Amends Assessment Bill

The senate Wednesday amended and passed Representative Patton's bill providing for quadrennial assessment of property in Macon county and naming three assessors for each township to perform the work. The bill was ordered returned to the house for concurrence in the senate amendments which were suggested by Patton.

The amended measure provides for the valuation to begin in April.

The amended measure substitutes Wylie Brown for Robert Shook in Franklin township No. 1; Tom McDowell for John Brabson in Smith's Bridge, and Ezra Shook and John T. McCoy for Alex Shook and Olney Moses in Sugar Fork.

The senate amendment also described Franklin No. 1 as the section lying south of State highways 285 and 28 and running through Franklin township; and Franklin No. 2 as the section north of these highways.

The bill will be returned to the house Thursday for concurrence.

Held In Shooting

SNOW HILL, Md. . . . Mrs. Jeannette Trader, estranged wife of the late Clarence J. Trader, electric utility owner, is being held on an indictment charging murder. She claims her husband shot himself when she refused reconciliation.

Three Guesses, Fans

LAKE WORTH, Fla. . . . Three guesses, fans, who the above baseball celebrity may be. . . . It is none other than "Nap" Lajole, wintering here, who for 15 of the 20 years he was in the major league, batted over .300 and has his name in baseball's permanent hall of fame.

HONOLULU, H. I. (PA)—Employees on the Hawaiian sugar plantations are paid a basic wage plus a bonus which varies with the price of sugar.

George J. Conley Injured by Blast

George J. Conley suffered a broken rib and painful bruises last Saturday morning when struck by flying rock after a blast at a quarry near Iotla bridge.

Mr. Conley is foreman of the crew engaged in building and improving streets in Franklin and the rock used in the work is secured at the quarry where he was injured.

Our Bird Friends In Winter

It is easy to have birds about your yard in winter, if you want them, whether you live in town or country. In The Progressive Farmer Alexander Sprunt, noted writer on nature subjects, gives the following definite instructions about how to attract bird neighbors:—

"To bring birds to your yard, you must provide them with food. A feeding table should be at least three or four feet high. Place it in a reasonably sheltered spot but not too near shrubbery where a lurking cat may crouch. Any simple board attached to an upright stake will do, for the birds are not particular.

"A pocket bird guide, a pencil, and a notebook will be a wonderful combination to the invalid and it will amaze all concerned to see how the list of visitors to the feeding table will grow, day by day. The spreading of the table means little—a few crumbs, some grain, a piece of suet, and you have provided a sumptuous banquet. Sunflower seed, cracked corn, wheat, and the like make excellent attractions for the feathered boarders and crumbs are welcomed as well."

JUNEAU, ALASKA (PA)—Attu, east of the Aleutian Islands, is the westernmost point of the American continent and in the same longitude as New Zealand.

The first manufacturer of copper sheets and bolts in the United States was Paul Revere. He supplied the copper sheathing for the old frigate, Constitution.
