700 POLICE FOR FAIR

NEW YORK.—Among the many safeguards to be provided by the New York World's Fair of 1939 in behalf of its millions of visitors and also of its 300 structures filled with almost priceless exhibits, there will be a special fire department with several stations on the grounds manned by veteran fire-fighters and equipped with latest types of motorized apparatus. They will have the exposition under ceaseless surveillance. A force of more than 700 stalwart, smartly-uniformed special policemen will be recruited to patrol the grounds day and night.

Lake Emory

By MRS. J. R. BERRY

The rainfall for July was 3.99 inches. This is about one-half the July normal.

Reid and Turpin have discarded the steam engine of the "horse and buggy days," and have fitted up their sawmill with electrical equipment. Most likely this is the only sawmill in Macon county that is operated electrically.

Mr. and Mrs. C. A. Aycock, and daughter, Lucile, of High Rock, N. C., and Miss Katherine Barker, of Andrews, were visitors here Friday. Mr. Aycock holds a responsible position with the Carolina Aluminum company at High Rock.

Louise Saunders, of Asheville, was the week-end guest of Annie Lou Saunders, of Ridgecrest.

Bill Buchanan, from Tennessee, is here visiting his parents, Mr. and Mrs. Ben Buchanan.

The young people of this place enjoyed an ice cream supper Saturday night at the home of Mrs. Gordon Smith.

SOUVENIRS

FAIRMONT, MINN.—The men who helped shovel snowdrifts off Northwestern railroad tracks last winter received their final checks, but they probably won't cash them.

Forty of the snow shoveling crew received checks from the railroad for two cents each—the social security tax that had been deducted from their wages.

The banks' charge to cash a check is five cents.

RENTS "BATTLEFIELDS"

SAN FRANCISCO.—War is getting more and more expensive every day, according to army officials at the Presidio here. Even to have maneuvers for the 55,000 men of the 4th army, it was necessary to rent "battlefields" on which the troops could operate.

Husband—"Don't you think you ought to keep account of your household expenses?"

Wife—"Why? There's never anything left at the end of the week to account for."

WHY FIRESTONE STANDARD TIRES ARE EXTRA SAFE

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA

From these plantations comes an ever increasing supply of the world's finest rubber. Economies in producing raw materials, manufacturing and distribution make it possible for Firestone to give you so much for your money.

PRICES AS LOW AS \$6.40

WHY FIRESTONE STANDARD TIRES ARE EXTRA SAFE

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every fiber in every cord in every ply is saturated with liquid rubber. This counteracts dangerous internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Firestone Standard Tires give you all these extra value features because they are first-quality tires built with high-grade materials and patented construction features. You SAVE MONEY because you buy this high quality and extra value at such low prices.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—to try's top tire value.
