Will Buy N. C. Sweet Potatoes

RALEIGH, Sept. 1.—Mrs. W. T. Bost, commissioner of the state board of charities and public welfare, has just received authority from the federal surplus commodities corporation to purchase for their account up to 1,500,000 pounds of North Carolina sweet potatoes for distribution to needy persons in this state and throughout the nation.

This is a total of 50 freight carloads, 20 of which will be distributed in North Carolina. The remaining 30 will go to other states. Camden and Currituck counties will furnish the bulk of the potatoes. Distribution will start within the next two weeks.

The federal surplus commodities corporation is furnishing the funds with which to pay for the potatoes and is setting the price to be paid, as well as furnishing experienced buyers to do the actual purchasing. The state welfare department is merely serving as agent in paying for the potatoes in order to facilitate the prompt liquidation of the growers' invoices.

It is estimated in the letter of authority received by Mrs. Bost that approximately \$16,000 will be

required to carry on the purchase program. That sum is being transferred to the state and will be lodged with State Treasurer Charles M. Johnson, who will, upon presentation of proper documentary evidence, pay the bill.

Such potatoes as may be purchased and allotted to North Carolina will be distributed through the office of A. E. Langston, director of the commodity distribution division of the state board of charities and public welfare.

A Safety Tip FOR YOUR Labor Day Trip

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA

From the Firestone plantations in Liberia comes an ever-increasing supply of the world's finest rubber. Money saved here and in manufacturing and distribution enable Firestone to sell a safer, first-quality tire at lower prices.

DON'T take chances on your Labor Day trip. Protect yourself and family by equipping your car with a set of new first-quality Firestone Standard Tires. Firestone builds extra quality and extra safety into these tires and sells them at lower prices because Firestone controls rubber and cotton supplies at their sources, manufactures with greater efficiency and distributes at lower cost.

PROTECTION AGAINST BLOWOUTS — 8 extra pounds of rubber are added to every 100 pounds of cord by the patented Gum-Dipping process.

PROTECTION AGAINST PUNCTURES — because under the tread are two extra layers of Gum-Dipped cords.

PROTECTION AGAINST SKIDDING — because the tread is scientifically designed.

LONGER NON-SKID MILEAGE — because of the extra tough, long-wearing tread. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires.

DON'T RISK YOUR LIFE ON SMOOTH WORN TIRES!

DO YOU KNOW THAT last year highway accidents cost the lives of more than 38,000 men, women and children? THAT a million more were injured? THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to smooth, worn, unsafe tires?
