

Mineral Investment Opportunities Listed

What are considered by State Geologist H. J. Bryson as some favorable opportunities for the investment of capital in the mineral resources and mineral products manufactured therefrom are given by the state geologist in Economic Paper 64. They are as follows:
 Development and operation of low-grade gold deposits.
 Development of lithium (Spodumene) deposits in Gaston county.
 Further development of the pyrophyllite deposits of the Piedmont section.
 Plants for the manufacture of wall board from vermiculite and

low grade asbestos for heat and sound insulation.
 Pottery plants for utilizing the kaolin, feldspar, and quartz produced in Western North Carolina. The erection of additional kaolin recovery plants.
 Glass plants for the manufacture of bottles and baking dishes.
 The construction of plants for the manufacture of light-weight bricks for insulation purposes.
 Development and operation of coal deposits in Deep River.

Geologist Reviews Mining Industry

Economic paper No. 64, written by State Geologist H. J. Bryson and recently off the press, contains a review of the mining industry of North Carolina from 1929 to 1936, inclusive.
 Tabulations in the publication give the total value of all minerals produced each year from 1929 through 1936 and also the value of each class for these years. The peak production was in 1929, being shown as \$14,668,817; and from that year there was a slump until the lowest yield was \$3,794,999 reached in 1932. After that year there has been a steady increase each year through the latest tabulation of \$7,502,567 for 1935.
 The Economic paper carries a review of the situation for the more important mineral industries, a number of maps showing the location of deposits and manufacturing plants, and is illustrated by photographs of some of the mining operations.
 Short reports on "Kyanite," by Dr. J. L. Stuckey, professor of geology, North Carolina State college, and "Spodumene," by Frank E. Hess, U. S. Bureau of Mines are included in the publication.

WAR VETERANS FOR CCC CAMPS

Limited Number To Be Named By Veterans Administration

J. S. Pittman, manager of the North Carolina office of the Veterans administration, with headquarters at 212 South Tryon street, Charlotte, announces that, beginning on or about October 1, 1937, his office will be authorized to select a limited number of white and colored honorably discharged war veterans for enrollment in the Veterans' contingent, Civilian Conservation Corps and that the veterans referred to are those who saw service with the armed forces of the United States during the periods of service indicated: World War, April 6, 1917 to July 2, 1921; Spanish American War, April 21, 1898 to July 5, 1902; the Philippine Insurrection, August 13, 1898 to July 5, 1902; the More Expedition (Philippine), August 13, 1898 to July 15, 1902 and the Boxer Rebellion, June 20, 1900 to May 13, 1901.
 Mr. Pittman added that honorably discharged veterans of any of these wars, who are permanently residing within the state of North Carolina and who are interested in this work should communicate with his office at once. It was further stated that, under existing regulations, veterans who were previously in the CCC camps, although honorably discharged therefrom, could not receive favorable consideration for reenrollment until after the expiration of six months from the date of their last previous discharge; and that, furthermore, it is provided that favorable consideration cannot be given the applications of any veterans who were discharged from the CCC under dishonorable conditions, administratively, as not being considered worthy of reenrollment, or by reason of unsatisfactory services.
 While all such applications are to be mailed to the Charlotte office of the Veterans administration, in many instances, the proper forms may be secured from local offices of public welfare, state or federal employment service, the American Red Cross, as well as local posts of the American legion, veterans of foreign wars, disabled American veterans of the World War and local camps of the United Spanish War veterans.
 Veterans are reminded that in order to receive consideration, they are required to submit their applications (form P-130) in duplicate to the Manager, Veterans Administration, 212 South Tryon street, Charlotte, which forms may be secured upon application to that office, if not available in their local communities.

wood work, etc. All young men in the Navy have the opportunity to learn some useful trade, free of charge.
 Complete information regarding enlistment requirements can be obtained by writing or visiting the U. S. Navy Recruiting Station, Postoffice Building, Asheville, N. C.

offered by the fair association, three one-year scholarships to State college will be offered in the pig club, dairy calf, and baby beef exhibits.
 The winners will be selected on a basis of their showings at the fair and of their work during the past year.

4-H Exhibits To Be State Fair Feature

The 4-H club exhibits are expected to be a feature attraction at the state fair, Raleigh, October 12-16, according to L. R. Harrill, 4-H club leader at State college.
 Last year the baby beef and dairy calf exhibits together with the corn show put on by 4-H club members were considered the best ever witnessed in North Carolina, and an attempt will be made to equal or better that record this fall, Harrill added.
 Club members are also working hard getting ready for the judging contests covering crops, livestock, and poultry to be held Friday of fair week.
 Other exhibits in which entries will be made by individual club members will include swine, poultry, clothing, food conservation, and room improvement projects.
 Harrill is particularly interested in the educational exhibits which will illustrate what 4-H clubs are doing for North Carolina farm boys and girls. The theme will be "4-H club work trains in the art of living."
 One county will be selected from each of the five extension districts of the state to put on the educational exhibits in wildlife conservation, recreation, first aid, health, and farm and home conveniences.
 Harrill pointed out that in addition to the cash and special prizes

HORN'S SHOE SHOP SAYS WE ARE STILL MENDING SHOES

When your soles roll
 And your heels rock
 We'll save your sole
 And, also, your sock.

Sentinels of Health

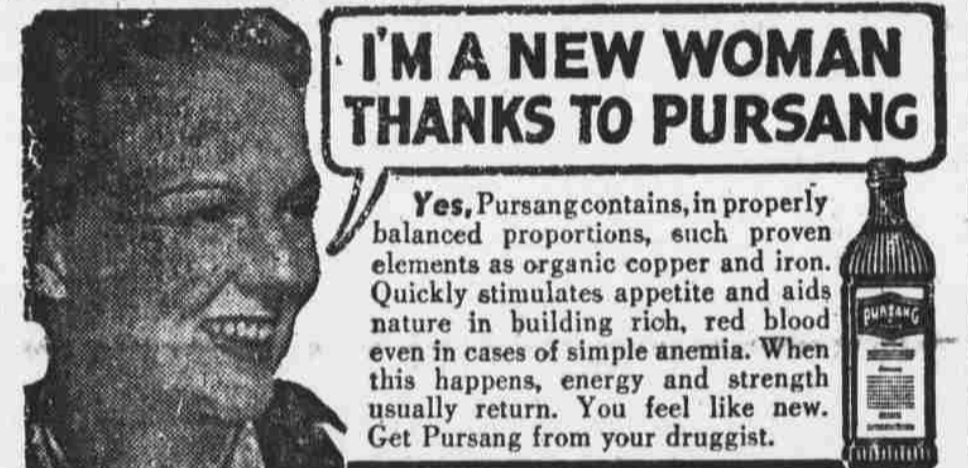

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feet tired, nervous, all worn out.
 Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.
 The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

DOAN'S PILLS

I'M A NEW WOMAN THANKS TO PURSANG

Yes, Pursang contains, in properly balanced proportions, such proven elements as organic copper and iron. Quickly stimulates appetite and aids nature in building rich, red blood even in cases of simple anemia. When this happens, energy and strength usually return. You feel like new. Get Pursang from your druggist.

KEEP BABY'S SKIN SAFE from GERMS

Mother, heed the urgent advice of doctors and hospitals; do as they do; give your baby a daily body-rub with the antiseptic oil that chases away germs, and keeps the skin SAFE. That means Mennen Antiseptic Oil. It's used by nearly all maternity hospitals.

It gets down into skin-folds—and prevents infection. It keeps the skin healthier. Get a bottle today. At any druggist.

Navy Seeks Recruits For This Section

A limited number of applicants for service in the United States Navy will be enlisted from this section of North Carolina during September according to an announcement by Lieutenant B. L. Doggett, the officer in charge of the North and South Carolina recruiting district.
 Young men who have graduated from high school are preferred; but applicants with at least one year of high school, or its equivalent, will be considered. Applicants accepted must be between 17 and 25 years of age, of good character, mentally qualified, unmarried with no dependents, and must be in excellent physical condition. Young men under the age of 21 years can be enlisted only with the consent of their parents or legal guardian. This consent is furnished on a special form.
 All first enlistments are made in the rating of apprentice seaman. The term of enlistment is four years, except that applicants under the age of 18 years, are enlisted for minority, that is, the enlistment expires on the day preceding the 21st birthday.
 The United States Navy offers a variety of duty and educational advantages. Upon completion of their initial training at Norfolk, Va., recruits are sent to sea for duty on the ships of various types, or to one of the many trade schools maintained by the Navy. Schools are maintained for electrical and ordnance work, radio and clerical work, machine shop, metal work,
