THE REASON HEADACHES ARE RELIEVED SO FAST

THE REASON BAYER ASPIRIN WORKS SO FAST
Drop a Bayer Aspirin tablet into a tumbler of water.

By the time it hits the bottom of the glass it is disintegrating.

This speed of disintegration enables genuine BAYER Aspirin tablets to start "taking hold" of headache and similar pain a few minutes after taking.

All people who suffer occasionally from headaches ought to know this way to quick relief.

At the first sign of such pain, take two Bayer Aspirin tablets with a half glass of water. Sometimes if the pain is more severe, another dose is necessary later, according to directions.

If headaches keep coming back we advise you to see your own physician. He will look for the cause in order to correct it.

The price now is only 15¢ for twelve tablets or two full dozen for 25 cents—virtually, only a cent apiece.
