A Trade Mark for 131 years. You have seen it hundreds of times.

Our famous Lead and Zinc Paints satisfies, both in life and hiding power, the most exacting.

Distributor's Statement:

After investigating numerous Paints and using several brands, we decided that WETHERILL'S Paints, Varnishes and Enamels, manufactured by Geo. D. Wetherill & Co., Inc., of Philadelphia, were best by test. They have been manufacturing paints since 1807, a hundred and thirty-one years, which of course eliminates any doubt as to it being a superior quality to ordinary paints bought in this locality.

We, too, have a reputation built by honest, upright dealings and the sale of quality merchandise. You can buy from us with the assurance that you are getting the best the market affords.

We trust that you will look upon us as your first source of supply for your paint requirements.
