Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

**Fertilizer Errors Costly**

It is daily news that people are killed, and countless numbers have their health impaired from the use of quack remedies and unbalanced food products. We are all shocked from these reports. Some of these products are sold in compliance with the pure food and drug laws.

Unbalanced plant food and new quack fertilizer formulas are causing the farmers of our country an annual loss of millions of dollars and in many cases total failure of crops. This does not arouse our sympathies quite as much as the death of people but it is shocking just the same. Some of these products are sold in compliance with the fertilizer laws.

Unfortunately there are many frauds and errors against which the laws cannot protect the people. In such cases the people must be guided by experience and observation. Farmers should use only that fertilizer that has been generally farm-tested under crops and in soils similar to theirs. The farmer's own experience and the experience of his neighbors are his surest guide.

Basic O-Ten-Four is noted for producing record yields of corn per acre. It is common knowledge that wherever Basic O-Ten-Four is offered it soon becomes the choice corn fertilizer of the outstanding farmers. Basic O-Ten-Four is famous for "bringing on" grass and clover that follow the cultivated crop.

Basic O-Ten-Four is pulverized, the product and process are protected by U. S. Patent No. 1,918,900. Sold only in the **Green Border Bags**.

Use **BASIC O-TEN-FOUR** for heavy corn. "It puts corn on the cob".

**POPULAR BRANDS OF BASIC PULVERIZED FERTILIZER**

- Basic O-Ten-Four—for corn
- Knox Vegetable Special—for vegetables
- Knox Triple A—for truck crops
- Knox Potato Grower—for potatoes
- Bright Burley Brand—for Burley tobacco.
