

**John R. Faison Here Last Week**

Mr. Faison was recently promoted from the position of county supervisor farm security administration, in this county to state administrative supervisor with headquarters in Raleigh. He was selected from the farm security personnel of the state because he had done better than average work as a county supervisor. His new duties, it is understood, will be to help county supervisors work out administrative procedure for handling the farm security program. This work will carry him to each county of the state of North Carolina.

Mr. Faison leaves behind him a splendid record of work done in Macon county. During the last three years about \$30,000 has been loaned to low income farm families in the county for the purchase of workstock, cows, farm equipment, and subsistence farm and home needs. The records of repayment on these loans has been most satisfactory. Mr. Faison was especially interested in helping the farmers secure better livestock and with the assistance of the county agent, has placed two registered Hereford bulls of breeding age, one registered Percheron stallion, and about 75 young mares in the county during the last two years.

**George B. Patton Thanks Supporters**

To the Voters of Macon County: Not being able to see and thank each one personally at this time, I take this method of expressing my sincere appreciation to those who supported me in my race for representative.

My election was made possible by the efforts exerted in my behalf by my good friends in every precinct, and their good work will never be forgotten.

I have nothing but the kindest feeling for those who voted against me, and I pledge my best efforts to represent all of the people of Macon county fairly and honestly in the next session of our General Assembly.

Gratefully yours,  
GEORGE B. PATTON.

**Crossnore School Asks Clothing Donations**

Dear Editor:

May I tell your readers that there is a good deal of work going on around Crossnore now? The WPA men are at work on the public school grounds, and playground, and the park to park highway is being built not very far from us.

This means a pay roll, and a pay roll means that we can get cash at the Sale, if we have some good clothes to sell, and especially if we have men's clothes. Oh, please just beg them to send us all the men's clothes that they can find, and all the good clothes for ladies and children, even if they have gone out of style. We'll use them. We'll make them over. Our folks have learned to appreciate good quality material. So little cash is given us during the summer, and we have those left-over grocery bills and coal bills staring us in the face. Clothes that will bring in cash mean reducing those bills. So put us where people will read us, and join us in hoping and trusting they will respond.

Gratefully,  
Mary M. Sloop, Bus. Mgr.  
Crossnore School,  
Crossnore, N. C.

**Play At Courthouse Saturday Night**

A temperance play, "Three Years of Hell on Earth," will be given at the courthouse Saturday night, beginning at 8 o'clock, under the direction of Mr. George Seay.

Admission prices will be 15 and 25 cents.

**Ice Cream Supper At Gospel Tabernacle**

It is announced that there will be an ice cream supper at the Gospel Tabernacle at Callasaja on next Friday night, June 10.

Proceeds will go to the piano fund.

**WHEN LIFE DEPENDS ON TIRE SAFETY**

On May 30, Floyd Roberts shattered all track records for the 500-Mile Indianapolis Race with an average speed of 117.2 miles an hour using Firestone Gum-Dipped Tires

**IT'S ALWAYS Firestone**

FOR 19 CONSECUTIVE YEARS THE WINNERS OF THE INDIANAPOLIS 500-MILE RACE HAVE PROTECTED THEIR LIVES WITH FIRESTONE GUM-DIPPED TIRES

THEY said it couldn't be done—that tires could not withstand the torture of the new high speeds. Yet Floyd Roberts set a new record, at this year's Indianapolis Race, averaging 117.2 miles an hour for the 500 miles on Firestone Gum-Dipped Tires.

With the sun-baked brick of the straight-away and the granite-hard surface of the turns pulling and grinding at their tires, 33 daring drivers, every one on Firestone Tires, waged a thrilling battle for gold and glory. Never before have tires been called upon to take such punishment. Never in all the history of the motor car has tire safety been put to such a gruelling test. Yet not one tire failed — not one single cord loosened — because Gum-Dipping, that famous Firestone patented process saturates and coats every cotton fiber in every cord in every ply with liquid rubber counteracting the tire-destroying internal friction and heat that ordinarily cause blowouts.

Why risk your life and the lives of others on unsafe tires? Join the Firestone SAVE A LIFE Campaign today by equipping your car with Firestone Triple-Safe Tires — the only tires made that are safety-proved on the speedways for your protection on the highways.
