**INTEREST IN ORGANIZATION OF HIGH SCHOOL BAND**

Need for a school band at the Franklin High School is arousing much interest among the students. Hardly any school of this size is without a band. Many students say that they are willing to buy instruments and take lessons if they can get a music teacher. A band puts more pep into the football squad and cheers the boys, even when the game seems almost lost. Those who are interested in football should be interested in helping to organize a high school band. The band could be used not only to "pep up" the football games and various athletic meets, but to add interest and zest to other activities, such as plays and P.-T. A. programs.

**If Asteroid Should Strike New York Harbor!**

This drawing by Walter Favreau of the Hayden planetarium shows the destruction of New York if an asteroid, such as Hermes, which came within 220,000 miles of the earth last year, were to fall in New York harbor. A tidal wave would inundate the city, shipping would be destroyed, bridges would crumble and skyscrapers would burst into flames as a result of the terrible heat.

**SCHOOL LUNCHES BEING SERVED**

The lunch room, in charge of Mrs. Homer Green, is giving much satisfaction. Both wholesome and appetizing lunches are being served for five cents a plate with a bottle of milk for three cents. The lunch usually consists of meat or a meat substitute, a vegetable, a fruit, and hot rolls. Lunches are served during the fifth and sixth periods. The pupils have fifteen minutes in which to eat and then thirty minutes of play on the outside. The children of Franklin greatly appreciate what the P.-T. A. is doing for them.
