FOOTBALL GAME HERE FRIDAY

Franklin Panthers Meet Bryson City On Local Field

By WEAVER SHOPE

Franklin High will meet the fast Bryson City eleven here Friday at 2 o'clock. The attendance for Franklin's opening home game is expected to exceed all past records.

The Panthers played an excellent game last week against Sylva. With the exception of a slashed eye to Lyman Higdon and a severe leg injury to Billie Wilkie, the squad emerged from the game in fine shape and should be able to present a winning team in the tilt against the Bryson City team here Friday.

Billie Wilkie, flashy half-back, who starred in the Sylva game, will be unable to play against Bryson City, and his loss will be felt by the team.

The squad went through another tough scrimmage Tuesday and drilled on blocking and tackling. Perfecting plays and ironing out the weak spots observed in last week's game will round out the program of drills in preparation for Friday's game.

Locals Lose

Last Game Of Season To Otto CCC Camp

The Franklin baseball team lost the last game of the season to the boys of CCC Camp F-23 at Otto Sunday afternoon.

Both pitchers were in top form, Manley for Franklin, pitching an exceptionally fine game, but the Franklin team failed to hit the ball at the right time, and lost several chances to pile up runs when the bases were loaded. Several costly errors in the field also helped to defeat the locals.

The final score was 8 to 2.

TEACHERS HOLD MONTHLY MEET

Announce 100 Per Cent Enrollment In N. C. Association

By MARGARET H. RAMSEY

The teachers of Macon county met last Saturday for the regular monthly meeting. At this meeting the teachers joined the North Carolina Teachers Association. Macon county is proud to announce 100 per cent enrollment this year for the first time in history. The following officers were elected:

President, Mrs. Helen Macon; secretary, Mrs. Margaret Ramsey; executive committee, J. R. Wells, Professor Summer, and Charlotte Young.

The teachers voted unanimously to work for three objectives this year: first, teacher's retirement on pension provision; second, civil service or tenure of office act providing that teachers with "A" certificates and five year teaching experience will be assured of a job unless just cause for dismissal can be shown; and third, teachers holding "A" certificates and having had eight years teaching experience be paid a minimum salary of at least \$1,200 per year.

Immunization Effective Against Diphtheria

RALEIGH, Sept. 28.—If the approximately 80,000 children born in North Carolina annually were immunized against diphtheria the first year of their life, this would mean the elimination of several hundred useless deaths every 12 months and the prevention of something like 2,000 cases each year, which leave our children with serious impairments, Dr. Carl V. Reynolds, state health officer, has pointed out.

"Diphtheria immunization is 85 per cent effective in preventing the disease," he said, "and, consequently, in doing away with the dangerous sequelae which follow in its wake, including principally heart complications and a weakened condition which, in later life, means less efficiency in the school room and, following that, in daily employment."

"Seeing that children are given the advantage of immunization is primarily the responsibility of the parent. The physician can only advise. Only last Saturday, 15 cases were diagnosed as diphtheria in the state laboratory of hygiene, while the expectancy for this month is already up about 30 points.

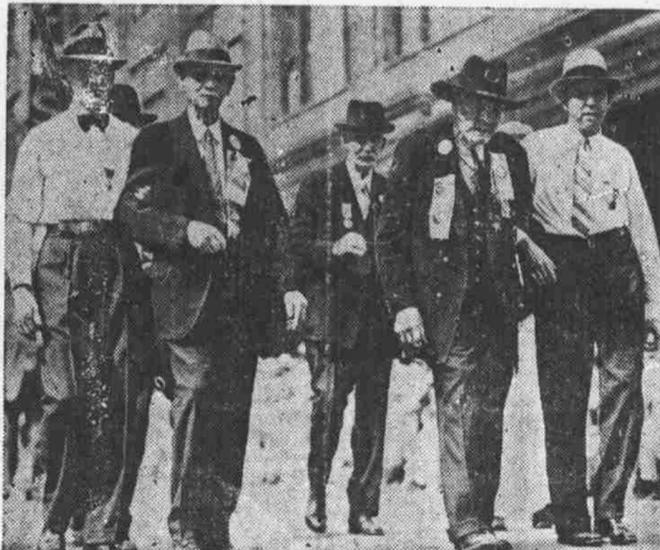

"I wish to appeal to the parents of North Carolina to give careful consideration to this matter before it is too late and neglect has saddened their homes."

Fisher, 89, of St. Paul.

STORM RELIEF FUNDS ASKED

Local Red Cross Chapter To Aid In Caring For Sufferers

The local Chapter of the Red Cross has been notified that it may receive contributions for disaster relief in the New England flood and hurricane areas, according to the Rev. J. A. Flanagan, chairman of the Macon county chapter. Mr. Flanagan stated that no definite quota had been assigned, the chapter awaiting the report of the relief workers now giving relief and estimating the amount of the damage.

Approximately 10,000 families are cut off from their homes and being cared for by the Red Cross which will mean that a substantial amount of money will be necessary to care for these stricken families. South-eastern New York, Rhode Island, Connecticut, and eastern Massachusetts, were visited by a flood followed by a hurricane that did more than \$300,000,000 damage it has been estimated.

Contributions may be left at the Bank of Franklin, The Franklin Press, or sent in to the chapter chairman or treasurer. Any amount will be gladly received and forwarded to the national headquarters.

Frank Jennings, 51, died in Angel hospital at 2:45 Monday morning from a broken neck and back which he received early Friday afternoon when his clothing came in contact with a whirling shaft at the McClure grist mill, which he was operating. Dentists

Examine 1329 Children In Macon County

During the past few weeks the dental division of the N. C. state board of health has had Drs. Maston and Stevens in Macon county. During that time they worked in the following schools:

Pine Grove, Franklin, Mashburn's Branch, Olive Hill, Buck Creek, Walnut Creek, Holly Springs, Scales, Hickory Knoll, Oak Dale, Iotla, Slagle, Burningtown, Union, Mountain View, Maple Springs, Mountain Grove, Otto, and Academy, where 1,329 children were examined, 363 children were treated, either by taking out teeth which needed taking out or filling decayed teeth, and 278 children were referred to local dentists for treatment.

This is just one part of the health work being done by the local health unit, under the supervision and direction of the N. C. state board of health.

With something like this number of children being examined and treated each year, it should not be very long until this particular class of work should bring this county up equal to any in the state.
