

## Workers Busy Building America's Largest Ship

The America, largest ship to be built in this country, is now under construction at the Newport News Shipbuilding company in Virginia. The new super vessel will be the running mate for the Manhattan and Washington in the transatlantic fleet. Pictured at the left are highly skilled mechanics blading the low pressure turbines, a part of the America's driving machinery. There are some 15,000 of the blades for the casing plus that many for the rotor. At the right is a well-outfitted electric welder, dressed in safety equipment.

### French Family Wins 20,000 Francs

A prize of 20,000 francs was awarded Adrien-Jules Sandrin of Bourgneuf-la-Reine, France, for their large family. The winners of the Cognac prize are seen here with 11 of their 12 children.

### BR-R-R, IT'S COLD

A sudden midwest cold wave didn't catch this newsboy unprepared. He foiled the wintry blasts with a makeshift stove and a couple of gunny sacks. He also added a couple of sweaters to his ensemble.

### British Monarchs Will Spend Four Days In U. S.

The itinerary announced for the Canadian tour of King George VI and Queen Elizabeth shows that their majesties will spend four days in the United States.

The royal couple will cross the Canadian border at Niagara Falls on June 8 and will leave the United States in time to reach Shebrooke, Que., on June 12.

They will first touch land in the western hemisphere at Quebec City on May 15 and will visit every province and most large cities of the Dominion before sailing for home from Halifax, N. S., on June 15. They will travel on the battleship Repulse.

The itinerary was arranged so that the royal couple will do little traveling at night. They will lie in the royal train except when it stops at Quebec, Ottawa and Victoria, B. C. Dates of travel were given in the itinerary but not the functions that their majesties will attend.
