IT'S HERE! The NEW Firestone CHAMPION TIRE

with the NEW Safety-Lock Cord Body and NEW Gear-Grip Tread

**Stronger Cord Body
More Non-Skid Mileage**

Plus
FAMOUS TRIPLE-SAFE CONSTRUCTION

FLOYD ROBERTS
1938 National Race Champion
Champion race drivers, whose very lives and chances of victory depend on tire safety, know tire construction and that is why they select and buy Firestone Tires for their racing cars.

FIRESTONE triumphs again! This time with the new Firestone Champion, the tire that sets the safety standards for 1939. This new tire provides a combination of safety features never before built into a tire. It is a completely new achievement in safety engineering.

From the experience gained on the speedways of the world and in the Firestone laboratories, Firestone engineers have developed a revolutionary new type of cord body called *Safety-Lock*, which provides amazingly greater strength. This outstanding achievement makes possible the use of a thicker, tougher, deeper tread which assures much greater non-skid mileage. Because of this new Safety-Lock Cord body and Gear-Grip tread, the modern streamlined Firestone Champion Tire establishes completely new standards of blowout protection, non-skid safety, silent operation and long mileage.

The Firestone Champion Tire embodies the famous Firestone Triple-Safe construction—you get the exclusive and patented Firestone construction features of Gum-Dipping, two extra layers of *Safety-Lock* cords under the tread and Gear-Grip tread design. Never in all the history of tire building has there been such a triple-safe combination to protect you against the dangers of blowouts, punctures and skidding.

Come in today and equip your car with a set of new Firestone Champion Tires — the only tires made which are safety proved on the speedway for your protection on the highway.
