

**W. N. C. Fishing Season Extended**

The fishing season for all species of fish except trout, in the west of Alleghany, Wilkes and Rutherford counties and west of Highway No. 18 in Burke and Caldwell counties, has been extended to April 1st, it was announced today from the Asheville office of the North Carolina division of game and inland fisheries.

The season was originally set to close March 1st, but due to a great demand from the people to fish for coarsefish and recent cold weather which will delay spawning somewhat, it was concluded that there would be very little harm done to the spawning fish by extending this closed period. The season as now set for large and small mouth bass, bream, crappie and all other species of fish except trout, closed the 1st day of April and extends to June 10th, at which time it opens again. The trout season is now closed and will not open until April 15th. Under special regulations, Lake Santeetlah in Graham county is now closed to all fishing and will not open until June 10th.

In view of the granting of this extension and the equalizing of the large and small mouth bass season, also the plans for a widespread public restocking program, the division earnestly requests that should any fisherman catch any of the various species of game fish which looks to contain roe or spawn, that they will wet their hands and carefully release these fish back into the water. Each fish released means the saving of some five or six thousand young.

E. B. KUGLER,  
Assistant to Commissioner  
Div. Game and Inland Fisheries.

**Trees Are Supplied For Reforestation**

Farmers who wish to reclaim acres of depleted land may obtain forest tree seedlings at a nominal cost through their county farm agents, according to an announcement by R. W. Graeber, forester of the State college extension service. These trees are being furnished by the state nursery, operated by the North Carolina department of conservation and development.

Longleaf, loblolly and shortleaf pines, black locust, cypress, yellow poplar and red cedar trees are available at a cost of \$2 per thousand and at the nursery, or \$2.25 per thousand delivered by parcel post or express. Black walnut seedlings cost \$10 per thousand at the nursery. County agents have order blanks and are prepared to assist farmers in selecting the best species of trees for their particular land.

Graeber reported that to date orders have been placed through his office for 432,667 tree seedlings for 158 Piedmont and Coastal Plain farmers. These include farmers in typical cotton and tobacco counties, where reforestation is most needed following constant cropping.

Twenty-eight farmers in 20 counties are planting 5,000 or more trees each, with the largest order being placed by Adam Lockhart of Anson county, for 36,000 trees. Turner Whitehead, manager of the R. B. Douglass Farm in Halifax county is a close second with 30,000 trees. Other large orders came from: W. G. Clark, Jr., of Edgecombe county, 20,000; J. A. Bell of Mecklenburg county and Doak Finch of Davidson county, 14,000 each; and George A. Holderness of Edgecombe, 12,000.

**Four-Year College Scholarship Offered**

L. R. Harrill, State 4-H Club leader, has announced that the outstanding club member in North Carolina during 1939 will receive a four-year scholarship to State college as has been the case in past years. Also, the outstanding club member in each county in the state will receive a scholarship to the State 4-H Short Course at State college in the summer of 1940.

The awards are offered through A. G. Floyd of the Chilean Nitrate Educational Bureau to promote interest in a continuous program of achievement in all phases of 4-H Club work.

Any bona fide club boy is eligible to compete for the awards, except that previous winners of state and county awards will not be allowed to again compete for those particular prizes. However, previous county winners may continue to compete for the four-year scholarship. The winner of the state award

must be eligible to accept the scholarship, and his application accepted, prior to the opening of college the fall following the making of the award; otherwise the award will be given to the first alternate or revert to the 4-H scholarship fund.

The winners will be determined on the following basis: Club member's record of production as shown by project record books, 50 points; participation of club members in club and community activities such as exhibits, judging contests, fairs and achievement day program, 15 points; leadership activities in club, community and other organizations, 20 points; club member's own story of his 4-H experiences, 10 points;

and club member's high school record as shown by his principal's report, 5 points.

**Broadway**

By EFFIE WILSON  
Rev. and Mrs. Hull, were making calls in this community last week. Tom Wilson made a business trip to Dillard, Ga., Thursday. Carl Vinson, of Dillard, Ga., was in this section on business Saturday of last week. Dr. Neville of Dillard, Ga., was visiting the sick in this community Tuesday. Jay Wilson spent Saturday night at the home of Andy Wilson. Mrs. Bell Wilson has been visit-

ing her brother, Zeb Carver, who has been very sick for some time.

Frank Wilson has been on the sick list the past week.

Frank Cabé visited Andy Wilson Saturday night.

Stella Wilson spent last week-end with home folks.

**PLANTING LESPEDEZA**

Chatham county farmers have the largest amount of good, clean, home-grown Korean and Kobe lespedeza seed that have ever harvested and many are now seeding or preparing to seed the lespedeza on small grain.

**LOANS**

Emergency crop and feed loans

for 1939 are now being made in all the early planting sections of the south and southwest, reports the farm credit administration.

*The Safety Sensation of 1939!*

**THE NEW Firestone CHAMPION**

**The Only Tire Made with the NEW SAFETY-LOCK CORD BODY and NEW GEAR-GRIP TREAD...**

NEVER before in our experience has a tire met with such instant and unanimous approval as the new Firestone Champion Tire. It's the Safety Sensation of 1939! Our customers have started a word-of-mouth campaign that is making this the biggest selling tire we've ever had. Already we are reordering to meet the demand.

The marvelous gripping power of this amazing new tire, so dramatically demonstrated in actual use has swept it to amazing heights of popularity. Motor car manufacturers have been so impressed by its superior performance that they have adopted it for their 1939 models.

Why? Because the Firestone Champion Tire is an entirely new achievement in safety engineering.

**Stronger Cord Body.** This is accomplished first, by the use of a completely new type of tire cord called "Safety-Lock," in which the cotton fibers are more compactly interwoven to assure cooler running and provide greater strength. Then, the fibers in each individual cord, the cords in each ply and the plies themselves, are all securely locked together by a new and advanced Firestone process of Gum-Dipping which provides amazingly greater strength. And greater strength means greater safety.

**More Non-Skid Mileage.** The new Safety-Lock cord construction provides the extra strength needed for the use of the new, thicker, tougher, deeper Firestone Gear-Grip tread which delivers remarkably longer non-skid mileage. This sensational new tread is called "Gear-Grip" because of its unique design — it has more than 3,000 sharp-edged angles which grip the road with a sure-footed hold to protect against skidding and assure a safe stop.

You need this extra non-skid safety and blowout protection and you need it NOW! Drive in today and equip your car with a new set of Firestone Champion Tires—the only tires made that are safety-proved on the speedway for your protection on the highway.

Listen to The Voice of Firestone with Richard Crooks, Margaret Speaks and Alfred Wallenstein, Monday evenings over Nationwide N. E. C. Red Network. Listen to The Firestone Voice of the Farm—Everett Mitchell interviews a Champion Farmer each week during noon hour. See local paper for station and time.

**LOUIS MEYER**  
Only Three-Time Winner  
Annual Indianapolis  
500-Mile Race

Champion race drivers, whose lives and chances of victory depend on tire safety, know tire construction and that is why they select and buy Firestone Tires for their racing cars.

**Firestone LIFE PROTECTOR**  
the Tire within a Tire

This amazing new Firestone development makes a blowout as harmless as a slow leak.

Should a blowout occur the exclusive Firestone Safety-Valve holds sufficient air in the inner compartment to support the car until it is brought to a safe stop. Your car equipped with Firestone Life Protectors is completely safe from the dangers of blowout.
