ROCK BEING BLASTED FROM LITTLE BEARPEN

A huge ledge of rock, measuring approximately 300 feet in length, 25 feet in width and 20 feet in depth, was blasted from Little Bearpen mountain on Saturday, and another ledge of like dimensions on Monday, with only a small amount of vibration and very little noise, although 22 bores of dynamite were used in each blast. Jeep Proves Popular at Sports Show

An albino coatl mundi (otherwise known as a jeep) enjoys a good laugh at the expense of onlookers at an outdoor show in New York. He was exhibited by Mrs. Eugenia S. Sharrock of that city, and is the only known animal of its kind in captivity. Visitors didn't know if he was bored, amused or hungry.

CARD OF THANKS

We wish to extend to our many friends and neighbors our sincere thanks for the kindness they have shown during the illness and death of our beloved father. May we also express our appreciation for the many beautiful floral offerings.
