MRS. H. G. STORY

## GREETINGS TO HIGHLANDS

Heigh-ho! Heigh-ho! We are off to the Mountains! The Winter is over—the Summer is here.

We long for the peaks and the crystal fountains— Our friends—and the welcome of Highlands, so dear.

We watch the items in Franklin's fine paper— That this one and that one is back on the scene. We dream of Whitesides, that lofty sky-scraper. We long for Satulah—so stately and green!

Heigh-ho! Heigh-ho! Do we hear distant thunder? Shall we shrink from the flash of lightning's bright spear? We are coming back, with all our plunder.

Greetings, dear Highlands! The Summer is here. M. P. J. A Summer Resident.

Mrs. Sargent is the daughter of Dr. Alexander P. Anderson and the late Mrs. Anderson of Red Wing, Minn. Her father and mother were married in the old Rideout house here almost 40 years ago, while Dr. Anderson was a professor at Clemson college. It was during Dr. Anderson's professorship at Clemson college that he discovered the formula for the nationally known puffed rice cereal, put out by the Quaker Oats company, later going to Columbia University to secure better equipment for perfecting this formula.

In buying here Mrs. Sargent

feels that she is really returning home, since a number of her girlhood summers were spent here.

## JUMP

Making Hay Is Easy with

# OLIVER

IMPLEMENTS

THE OLIVER CLIP-CUT MOWER is the first all-purpose mower. The Clip-Cut action is so efficient in all crops that the uniquely spaced and braced Clip-Cut guards work in anything or on anything that can be machine-mowed. Lespedeza and soy beans don't bother them, nor does stony soil. And this mower is a laugh for the horse, for it's the lightest draft mower on the market.

THIS SULKY DUMP RAKE is built for hard usage. Its bridge-trussed frame prevents sagging and twisting. It dumps the hay the instant that pressure is applied to the dump pedal. Then the teeth drop immediately, so there is no unworked strip next to the windrow. There are three different "down" positions of the teeth and four different "up" positions.
