

FRANKLIN WINS AGAIN SUNDAY

Hazelwood To Play Here Next Sunday; Tight Game Expected

The double-header scheduled for last Sunday afternoon between Franklin and the Asheville All-Stars was cancelled out of respect for the family of A. L. Leach, whose death occurred Sunday morning, and whose home adjoins the ball park.

After the Asheville team was notified not to come over, a game was arranged with the Otto CCC boys on their grounds, and nine fast innings were played resulting in a score of 8 to 3 in favor of Franklin.

The CCC boys have improved wonderfully since the beginning of the season, and are now playing real baseball. If they keep going they are going to have an extremely formidable team within a few weeks.

Leo Manly, pitching for Franklin, struck out 14 men, and his hitting had much to do with winning the game. Russell's base stealing was also a feature of the contest.

Franklin Loses To Clayton

The Franklin boys went to Clayton Tuesday afternoon and attempted a game with only four regular players in the line-up, thus inviting defeat, which came to them good and plenty, the score being 15 to 3 in favor of Clayton. It was a serious mistake to schedule this game when it was known that most of the first team would be unable to play, and Manager Mallonee was opposed to the trip, but some one had already made arrangements for the contest. It will count in the regular schedule as a defeat.

Next Sunday afternoon the local team is slated for a game with Hazelwood on the home grounds, and a large crowd is expected. Franklin has played nine games this season, winning seven, losing one, and playing to a 0-0 tie in the other. But they are up against a tough proposition Sunday, and it is incumbent upon the local fans to turn out in force and help the boys along.

Team Elects More Officers

At a meeting called by Manager Mallonee last Friday night Dr. K. M. Rimmer was elected treasurer and Nathan Pennington head gatekeeper, with Misses Grace Baird and Ruby Calloway as assistants. A name for the team was also chosen, and the organization will be known hereafter as the Franklin Tigers.

Boy Scouts May Get Trip To World's Fair In New York

The local troop of Boy Scouts have been busy for the past few weeks in renovating and fixing up the building used for meetings. The boys have put in some excellent work and we are justly proud of the results achieved. A contest was held for the patrol rendering the finest service and this was won by patrol four under the leadership of Allen Ordway. The members of the patrol—Allen Ordway, Kenneth Bryant, Fred Houk, Nat Macon, Wilburn Conley and Dick Angel—had a trip to Asheville on Tuesday of this week where they enjoyed a ball game, took supper and visited a show, the reward offered for the winning team.

Rehearsals are under way for the part the troop is to play in the Annual Rhododendron Pageant in Asheville next month. The boys have a very interesting part to play this year and the practices to date indicate that they will put on a good performance.

It is hoped that instead of the usual summer camp they may take a trip to the World's Fair in August. The intention on the part of the leaders is that this shall be an educational, rather than a camping trip. All meals will be taken in cafes and while in New York the Y. M. C. A. will be made headquarters for eating and sleeping with a daily trip to the fair, one evening spent viewing mid-town New York and one night listening to an actual broadcast from Radio City.

The outyard trip will be through Shenandoah Valley and west of Washington, Baltimore and Philadelphia and the return trip will be through these cities with a day spent sightseeing in the Nation's Capital. At least one of the leaders will be familiar with both New York and Washington having lived for some time in each place.

It is expected that the trip will cost each boy about \$30 which will include all meals, entrance to the fair, sleeping, etc., that is all the essentials.

Many boys want to make the trip whose parents for various reasons cannot afford to send them. Here is a golden opportunity for citizens with a genuine interest in the work among boys to sponsor one or more of these boys and send them along. Brother, it's your opportunity.

Suggestion In Regard To Mineral Specimens

In view of the increased interest now being manifested in the mineral resources of this section, it has been suggested to The Press by one of the mineral experts that it might be well to ask landowners who find minerals on their property which they think might be of value to bring specimens to this office for examination by experienced men.

The Press gladly adopts the suggestion and will be glad to see that any specimens left are turned over for examination to men qualified to pass upon their value.

SLIPPING

American farmers received an estimated \$463,000,000 for their products in April, a decrease of 5 per cent under the \$488,000,000 received during the same month a year ago.

Children's Books Needed For Franklin Library

The librarians of the Franklin library, Mrs. Frank I. Murray and Mrs. Thos. J. Johnston, wish to let the friends of the library know of the great need for children's books especially. An attractive "Children's Corner" has been arranged in the front room for the comfort of youthful readers, but the books offered them are pitifully scarce and worn out from long use. At this time when the children are having vacation many are coming to the library, eager for something new to read. Subscriptions to children's magazines are needed also.

The library rooms have recently had a thorough spring cleaning and attractive re-arrangement. A large reading table in each room provides for convenient use of magazines and reference books. As the library has no dues, it is dependent upon the voluntary contributions of public spirited citizens for new books and magazines, which are greatly needed for the library's service to the community.

FACTS FAVOR FORD

1 The 1936 Ford V-8 is a beautiful, modern motor car. Its 85-horsepower engine gives you economical, well-balanced performance over the entire speed range — and the 60-horsepower engine is even more economical.

2 The structural strength of the Ford car — frame, bracing, axles, body — makes not only for safety, but durability and long life.

3 Ford hydraulic brakes are exceptionally large and strong in proportion to car weight.

4 The Ford car is stabilized for comfortable riding. Its springbase, the distance between front and rear suspension, is 123 inches. Seats are toward the center, perfectly balanced. The car does not bob or dip and can have very little sway.

These four points — power, strength, safety, comfort — are by far the most important essentials in any motor car. They form the basic value of your investment.

With this solid foundation to build on, the Ford V-8 has been made beautiful, spacious, easy to drive. It is richly upholstered and has all the modern features which add to the luxury and pleasure of motoring.

You can see these things when you take a trial drive, but do not forget that the main value is in the things you do not readily see — quality of materials, precision of manufacture, fundamental engineering.
