

## FANS SEE TWO GREAT GAMES

Franklin And Gastonia Break Even In Contests

The Gastonia team came to Franklin Saturday for two games, and the local fans were treated to some real baseball, especially on Sunday.

The Saturday afternoon game was hotly contested and resulted in a score of 9 to 7 in favor of Franklin. Nichols and Higdon were on the mound for the locals and did fine work, and Montony and Russell slammed out home runs. John Wayne, from Otto CCC Camp, gave a fine exhibition at second while Ralph Bryson covered first in great style in place of Claud Duvall, who was unable to get away from his work for Saturday's game.

Sunday's game was a pitcher's battle that gave the cash customers more than their money's worth. John Wayne, who played second Saturday, was in the box for Franklin and he had everything necessary. He was never in trouble during the entire game and seemed stronger at the finish than at the start. In addition, he lined out a three-bagger, and secured in a fair way to win his own game, but a home run by Gastonia broke a 1 to 1 tie, and the final score was 2 to 1.

Gastonia got six hits and Franklin five, and the fielding on both sides was big league stuff, in spite of the soggy field. Tysinger for Franklin made one of the most spectacular catches in the outfield ever seen on the local diamond.

The Gastonia pitcher was a fair match for Wayne, and the Franklin batters had tough going when they faced him.

The Gastonia team is composed of fine young men who are always welcome here. They enjoy their trips to the mountains and are coming again on September 10 for two games.

## Here's What Ladies Expect An Advertisement to Tell Them

### "Where Can I Buy It?"

Naturally, one of the first things I want to know about something I see in an ad is—where can I buy it? It isn't simply a matter of convenience and of saving time in planning my shopping either! No, the name of the merchant, itself, often decides whether I buy or not. Invariably, you see, I give preference to stores whose ads I see regularly and often—I know the stores must have good value or they couldn't go on advertising year after year!

### "What Will It Do For Me?"

I find it so much easier to make up my mind when the ad tells me the facts about the merchandise! What is it? What will it do? How will it help me? Why do I need it? I want to know about color, weight, texture, material, style—I enjoy reading those things and I usually buy from the merchants who tell them to me.

### "How Much Is The Price?"

Of course not all ads mention the price, but if an item has been marked down I want to know from how much. So many sale ads say "Was Higher"—how much higher? I want to know how much I am saving and I want the chance of deciding for myself if the item is a real value or not. I have more confidence in the store that is consistently truthful and buy from such a store regularly—and my husband says an old customer is worth three new ones because new ones cost additional money to get!
