Co-Op To Distribute Patronage Dividend

ASHEVILLE, Feb. 28.—A three per cent patronage dividend, payable in credit toward stock shares, will be distributed next month by the Farmers Federation, it was announced by James G. K. McClure, president of the farm cooperative.

The dividend was voted at a meeting in Asheville last week of the Federation's executive committee after it had received an auditor's report on business of the past year.

This distribution, Mr. McClure explained, is in addition to the regular semi-annual dividends of 3 per cent paid in cash to all stockholders. This is the fourth consecutive year the Federation has declared a patronage dividend. The number of persons sharing in this distribution and the total amount of the payments cannot be determined until after March 1, the deadline for turning in 1939 patronage coupons. These coupons are issued only on cash retail transactions and must be returned within 60 days after the end of the year for a patron to qualify for dividends.

Leap Year Day

Today is the 20th of February. Children born today will not have a birthday until another leap year rolls around four years from today.

This year the leap year day falls on Thursday. The baby born today will be 24 years old before the 29th of February will again fall on that day.

Here is one version of the old rhyme that helps you remember the number of days of the months: Thirty days hath September, April, June and November, All the rest have thirty-one Save February, which alone Has twenty-eight, and one day more We add to it one year in four.

The Bookmobile, driven by Mrs. Frank Murray, made its regular trip through our community last week. Each teacher in the school may select books she considers suitable for her students, keep them one month and exchange for others or renew them. These books cover a wide range of instruction and entertainment and are a great addition to our schools. Books were also left at Joe Setser's. These, like the ones at the schoolhouse, are for the use of the public and can be obtained at no cost. The more they are read the more we get next time, so let's all show appreciation by using them.
