

All-Stars

Cheated Of Victory By Downpour

Despite a shortage of players last Sunday afternoon, "Gas House" Nichols was curving the Clayton Mountaineers into submission on their home diamond until a downpour of rain broke up the game in the first half of the fifth inning. The All-Stars were out front 6-4 when hostilities ceased. Franklin pushed over two runs

in the first inning with two away. Newton made first on an error, Duvall and Nichols singled, and Thomas scored Newton with a one-bagger. Swanson walked, forcing in the other run. With one down in the second, Sutton and Higdon singled, and Newton flied out. Duvall cleared the bases with a long single to center; Nichols singled, and Thomas walked. Swanson drove in the final two runs. The All-Stars go on the road this Sunday afternoon, meeting the strong Hazelwood nine on their home field.

State College Answers Timely Farm Questions

Q. When should seed Irish potatoes be selected?
A. Seed potatoes should be selected at harvest time. Go through the field just before harvesting and dig separately a large number of

hills keeping the potatoes from each hill to themselves. Then select the seed tubers from those hills containing the largest number of uniform potatoes typical of the variety. Be sure that the potatoes selected are free from disease spots and bruises. Extremely large tubers or those that are pointed at the ends should be discarded.
Q. How can I prevent the horns from growing on my young calves?
A. The development of the horns can be prevented by applying caustic soda or potash to the horn button when the calf is four to eight days old. Clip the hair

Bill To Create School Army Is Introduced

In a plan destined to provide a permanent trained reserve of two million men, for the defense of the United States, Representative Kent E. Keller, (D., Ill.), today introduced a bill in the House of Representatives, for the creation of The American School Army. To begin with the plan calls for the training of 21,850 youths between the ages of 15 and 18, each year in military, vocational and academic education to be increased as found necessary. These cadets are to be selected according to

the apportionment of the various Congressional Districts. In the Keller Plan, the educational board, under the chairmanship of the United States commissioner of education, has charge of the academic and vocational training and is to cooperate with the war department which provides the housing, discipline and military training. There is to be no educational requirement. The only bar against a boy who wishes to enter is a physical defect which can not be corrected by care and training or mental deficiency as to be classed incompetent.
