MRS. H. G. STORY

## CHURCH NOTES

**Highlands Methodist Church**  
Rev. J. S. Higgins, Pastor  
Norton:  
10 a. m.—Preaching.  
Cashiers:  
11 a. m.—Preaching.  
Glenville:  
3:30 p. m.—Preaching.

**Highlands Presbyterian Church**  
Rev. R. B. DuPree, Pastor  
10:15 a. m.—Church school.  
11 a. m.—Worship.  
8 p. m.—Christian Endeavor.

**Church of the Incarnation**  
Rev. Frank Bloxham,  
Priest-in-Charge  
10 a. m.—Church school.  
11 a. m.—Morning prayer and sermon by Rev. Milton B. Sackett, of Sanford, Fla.

**Highlands Baptist Church**  
Rev. J. G. Benfield, Pastor  
10 a. m.—Sunday school.  
11 a. m.—Sermon.  
7 p. m.—B. T. U.  
8 p. m.—Sermon.

## CHRISTIAN ENDEAVOR WITH MISS RAVENEL

The Christian Endeavor Union enjoyed a picnic supper at the home of Miss Marguerite Ravenel last Sunday evening, which was followed by a very interesting program. The devotional service was led by Sidney McCarty, Jr., and the Rev. R. B. DuPree had charge of the program. Miss Carrie Hickman, sister of Mrs. DuPree, gave a delightful reading.

The C. E.'s had planned to have the picnic supper and program on Sunset Rocks instead of at the church as usual, but the stormy weather made this impossible and Miss Ravenel's invitation to meet at her home was much appreciated. About 25 young people were present.

## LARGE SUM FOR LIBRARY

The results of the Jones-Yates golf exhibition for the benefit of the Hudson Library Association are very gratifying and the association is pleased to announce that the net amount for the Library is \$275.00.

## COLORED PEOPLE SING SPIRITUALS

Last Sunday's program given by the colored people of Highlands at the high school auditorium consisted of spirituals, solos and Scripture reading. A sizable crowd of white people attended this program and at its close 90 per cent of those present thanked the colored people for their splendid and inspiring service.

A silver offering was taken and presented to the Rev. R. B. DuPree who has been holding services for the colored people each summer. Mr. DuPree's acceptance speech showed a deep feeling of gratitude toward his colored friends.

Miss Peggy Polhill left last Sunday to attend the Wall-Many wedding which took place in Thomasville on Wednesday, August 14, at the home of the bride's parents, Dr. and Mrs. E. K. Wall. Miss Polhill was the bride's only attendant.

Mr. and Mrs. Fred Knight and small son have returned to Atlanta after spending a week here with their brother and sister, Mr. and Mrs. A. F. Knight. Miss Fairy Moore of Atlanta was a week-end guest of Mr. and Mrs. Knight.

Billy Crosby of San Mateo, Fla., arrived last week for a visit with Miss Mary J. Crosby at her summer home on Fifth street.

Prof. E. B. Mell of Athens, Ga., spent a few days here last week with his brother, James C. Mell.

Mrs. W. G. Soderquist has returned to her home in Asheville after a visit here with her mother, Mrs. Guy Paul and Mr. Paul.

Mrs. B. S. Bronson and Mrs. Sam Clark of Tarboro, who have been guests of Miss Rebecca Bridgers for a week, left Thursday to return to their home. This week-end Miss Bridgers is expecting the arrival of Miss Laura Armitage of Huntington, W. Va., and Miss Nancy Craft, of New York City, who will spend the remainder of August with her.

## New Coach at Brevard

L. H. (Dutch) Knight, former Furman University football star, will coach Brevard College athletics this year.

## Dutch Knight Is Head Coach At Brevard College

L. H. (Dutch) Knight, former grid star of Furman University, has been appointed head football and athletic coach at Brevard college for the coming year. He succeeds J. B. Christenbury.

Knight was a member of the varsity squad at Furman University for three years. Last year he was head coach at the Edgefield, S. C., high school, where he groomed a gridiron team that won all but two of the season's games.

This summer he is doing graduate study in the field of Physical Education at the University of North Carolina. He will take over his duties here early this fall.

Mr. and Mrs. F. H. Owen have as their guests Dr. and Mrs. F. A. Boyd of Weatherfield, Okla. Spending last week with Mr. and Mrs. Owen were Captain and Mrs. West Archer of Miami, and their niece, Miss Nancy Archer, of Danville, Ky. Other recent guests of the Owens were Mr. and Mrs. Wm. Morrell of Pittsburgh, Pa. University, Mr. and Mrs. E. A. Williams, Toccoa, Ga., and Mr. and Mrs. H. S. Stinson of Tampa, Fla.

Edward Potts is a patient in Angel hospital at Franklin where he is convalescing from an appendix operation of last week.

Bill Edwards has returned from Angel hospital in Franklin where he was a patient for several days.

Lewis Rice, Jr., has returned to Asheville after spending several weeks with his father, Lewis Rice, Sr., and his grandfather, Irvin Rice, in Shortoff. Since a small child Lewis has been interested in biological research and spent some time this summer in Washington, D. C., continuing this work. Some of his scientific slides have been sent to Duke University.

Sammie Westbrook has enlisted in the United States Army, and after a visit here with his mother, Mrs. Annie Westbrook, has returned to New Jersey for the present but expects to be stationed in Panama.

## State College Answers Timely Farm Questions

Q. What is the most economical and satisfactory ration for swine?  
A. There is no one best ration for it is possible to increase the net returns by selecting carefully each season the particular combination of feeds that will make a well balanced, efficient ration at the minimum cost. A more or less standard ration that produces good results consists of corn, tankage or fish meal, and a mineral mixture. This ration can often be made more economical by substituting a cheaper source of protein supplement for part of the tankage. Barley or wheat, when cheap enough, can also replace corn and 10 per cent of finely ground, bright green leafy legume hay added to the protein supplement will improve the ration if there is a vitamin "A" deficiency.

Q. What causes the milk from my cow to separate into three parts after it is churned—the clabber at the bottom, the water in the middle, and the cream on top with not much butter at all?  
A. Such difficulty in handling milk often happens in extremely hot weather. It is usually no fault of the cow or her feed. If you will place the milk immediately after milking in the coldest water available and keep the milk and cream by changing the water occasionally, it should help to remedy this trouble. It is best not to place it in a refrigerator or ice box until after cooling the milk in water. It is also important to give the milk utensils an extra good scalding, using baking soda in the hot water, to kill bacteria in warm weather.

Q. How can I "save" my hay if it happens to rain on it while in the field?  
A. If rain falls on freshly cut hay, there will be little damage, provided good curing weather follows. Half-cured or well-cured hay will be discolored, but will not mold if rain comes before it is raked up. The greatest damage is done to hay in the windrow, or in loose irregular piles. Such hay should be spread out as soon as the weather will permit. Well cocked hay will stand considerable

## Safety Lessons

By HOCUTT

"While an encouraging reduction in traffic fatalities was reported in North Carolina the first six months of this year, compared with the same period of last year, this reduction did not affect the traffic toll among school-age children, stated Ronald Hocutt, director of the highway safety division.

A six-months comparison shows that 50 traffic fatalities occurred in the state the first half of this year, compared with 57 for the same six months of last year. All types of fatal accidents combined took 353 lives in the state the first six months of this year, against 396 for the same six months of 1939. Thus, while total fatalities fatalities decreased approximately 12 per cent, child fatalities decreased less than 2 per cent.

A significant feature of the summary was the revelation that 37 of the persons under 15 who were killed the first six months of this year were pedestrians. This was 60 per cent of the total, whereas only 35 per cent of the total traffic fatalities for the period were pedestrians.

Some encouragement was gathered from the fact that only 37 child pedestrians were killed in the state the first half of this year, against 44 for the first six months of 1939, and only four bicyclists under the age of 15 were killed the first half of this year, against 8 in the same period last year.

Urging North Carolina parents to impress their children with the importance of safe practices and the dangers of wrong practices in their walking, playing, skating, and cycling, Safety Director Hocutt declared:

"It is better that children learn the lessons of safety through teaching, not through experience."

Urging North Carolina parents to impress their children with the importance of safe practices and the dangers of wrong practices in their walking, playing, skating, and cycling, Safety Director Hocutt declared:

Urging North Carolina parents to impress their children with the importance of safe practices and the dangers of wrong practices in their walking, playing, skating, and cycling, Safety Director Hocutt declared:

## Ample Care Urged For Pullet Flock

Poultrymen caring for their pullet flock during the late summer and fall should keep in mind that a little neglect now may be costly later, says C. F. Parrish, poultryman of the State college extension service.

The good poultryman will see that his birds are well fed on growing mash, whole corn, whole oats, and green feed. Here's why these items are so important in the pullet's diet:

The growing mash helps to build a good egg factory. Corn puts weight on the bird and lays on a reserve of fat for the heavy laying period. Oats furnish fiber, and help build resistance against disease, feather-picking, and prolapses. Green feed furnishes succulence, minerals and vitamins, and is rich in other essential food factors.

A liberal supply of green feed cuts feed bills and aids in growing a more healthy pullet. While green feed is more important during the growing state, it does have a definite place in the bird's diet after laying starts.

For late summer grazing and green feed, sowed young green corn may be used to good advantage, along with Sudan grass, wheat, oats, barley, soybeans, and alfalfa. If ample grazing has not already been provided, a green feed crop should be planted now.

Because egg prices generally rise sharply in August, many poultry producers ruin their pullets by rushing them with laying mash, Parrish said. The best plan is to let the pullets mature normally on growing mash, corn, oats, and green feed. Before the birds are changed to laying mash, they should have reached at least 20 per cent production.

rain; but should it be wet through, spread it out.

Q. Will a good crop rotation completely control Granville wilt?  
A. While crop rotations will not control Granville wilt completely, they are the best known methods of combatting the disease now known. The degree of control is dependent upon the crops used, the length of the rotation, and seasonal conditions during the year the field is returned to tobacco. In the rotations, corn has given the best control, followed closely by soybeans, herds grass, and cotton. Best results will be secured if weeds are kept out of the rotations.

Q. When may I plant alfalfa?  
A. Alfalfa, which produces one of the best of all hays, should be planted between August 15 and September 15. It is particularly adapted to the heavy red clays or other soils in a high state of fertility or well-drained. In the Mountain section, it should persist at least five to eight years. Alfalfa should be seeded at the rate of 25 pounds to the acre.

Q. How much variety should there be in the dairy cow's ration?  
A. A ration composed of a succulent feed, legume hay, and at least three different concentrate feeds usually contains sufficient variety for the cow producing a medium flow of milk. At least two more concentrate feeds would be needed for the heavy-producing cow. Variety in the ration adds to its palatability and insures against a shortage in the supply of mineral matter and the different forms of proteins.

## Cartoogechaye

Mrs. Ray Moses' brother, E. Y. Hairr of Fuquay Springs, and her two sisters, Mrs. E. S. Tanner of Rutherfordton and Mrs. Charles Davenport of Jamesville, spent a few days with her at her home on Cartoogechaye last week.

Mr. Hairr was recently made much of in a special edition of the Fuquay Springs Independent, devoted to the opening of the remodeled theatre there, for which Mr. Hairr was contractor. An alumnus of the University of North Carolina and of Chicago Institute of Technology, Mr. Hairr was praised by the manager of the theatre as "one of the state's foremost contractors."

Fifty-nine per cent of last year's motor vehicle deaths occurred on country roads and highways.

## Broadway

By EFFIE WILSON

Jerry Wilson has recovered from a bad case of measles. Stella and Edna Wilson who are working in Highlands, were home for a short visit last week. Prileau Vinson of Tesenta is in this community this week. Tom Wilson made a business trip to Highlands Thursday. Jerry and Glen Wilson were shopping in Highlands Saturday. Rev. Jim Vinson visited relatives in this community recently. Frank Wilson has been on the sick list this week.

# Modern White Light

From KEROSENE (Coal-Oil)

for Country Homes Everywhere

This should be welcome news indeed to the thousands and thousands of residents in rural and country homes, where the only light after nightfall is the weak, sickly, yellow light from an old-fashioned kerosene lamp. Think of it—modern, white, city light—simple, safe and most economical. What joy in reading, sewing, working, studying, and playing now in solid comfort—in perfect safety—and the danger from eye-strain greatly reduced.

Why subject yourself and family to the discomfort, trouble, inconvenience and danger to eyesight and health by continuing to use the same old smoky, smelly, unscientific light of grandfather's day? Modernize your home with Aladdin Kerosene Lamps, and have a real light. Come in and let us tell you all about this ideal home lighting device.

Aladdin Table Lamps without SHADES or TRIPODS  
Now as low as \$4.95  
MANTLE LAMP

## LOST

... 100 beer licenses by retailers in 37 North Carolina counties — lost because the legalized brewing industry does not want the patronage of outlets that do not operate in strict accordance with law, order and public decency.

Here is protection, a hundredfold, for one of the state's most important sources of tax revenue and employment.

Here is proof, a hundredfold, of our Committee's determination that conditions in retail beer outlets shall be as wholesome as beer itself!

## HIGHLANDS LITTLE THEATRE TO PRESENT PLAY IN CLAYTON

Arthur Little, director of Highlands Little Theatre, at present in Washington, D. C., will return at the end of the week to take "The Late Christopher Bean" to Clayton, Ga., at the request of Mrs. M. S. Edsan, president of the Clayton Woman's Club. The Woman's Club is sponsoring an evening performance of this play at the high school auditorium at 8 o'clock on Tuesday, August 20, and the proceeds will go toward equipping the lunch room in the Clayton school. Tickets will be on sale in Clayton and Lakemont by request of Mrs. Edsan, and at the door the night of the play.

The Board of the Highlands Little Theatre is making plans for a more ambitious summer program next year. They hope to give a number of plays in Highlands throughout the summer and to take them on tour to Clayton and other nearby resort towns.

## FAMOUS AUSTRIAN TO SING IN CONCERT

Charlotte Klinger, Austrian refugee now at Brevard, will be the central figure in a benefit concert at Wolf Ridge, the summer home of the Misses Marguerite and Clare Ravenel, on Wednesday afternoon, August 21, at 3:30 o'clock.

Mrs. Klinger is the grand-niece of Johann Strauss, noted European pianist and composer. She has performed on concert stage in Vienna as well as other European capitals. Coming to New York as a refugee, she was well received and soon became a faculty member of the New York School of Music. Her desire to be with her husband who is also a musician, caused her to come to Brevard, where he is located.

This concert is one of several benefits being sponsored by the Parent-Teacher Association of Highlands school.
