Realizing that a clean, comfortable bed is a great aid to restful sleep, the State college extension service has issued a pamphlet entitled "The Clean Comfortable Bed." It is Extension Miscellaneous Pamphlet No. 44, and the publication is available free upon request by name and number to the Agricultural Editor, N. C. State college, Raleigh.

Miss Pauline E. Gordon, extension specialist in home management and house furnishings, and Miss Mamie N. Whisnant, assistant specialist in the same field, prepared the pamphlet.

Care of mattresses, pillows, blankets, and comforts is stressed, and since these bedding materials are used for a long period of time, it is recommended that they be kept clean by protectors that can be laundered easily. Another point emphasized is the size of the sheets.

"Nothing is more unpleasant than bedding that is too short or too narrow," Miss Gordon declares. "Short sheets are uncomfortable since they do not protect the blankets and mattress. Also, they wear out more rapidly because the sleeper is always jerking them."

The publication recommends that the bottom sheet be long enough to allow for a good tuck-in at the head and foot, so that the sheet will be smooth. The top sheet should allow for a good tuck-in at
