Registration Of Workers By April 15 Urged

RALEIGH, March 19—Registration of all skilled workers who are unemployed or who are not utilizing their skills in their present jobs between now and April 15 is urged by Charles G. Powell, chairman of the State Unemployment Compensation Commission, as a part of the nation-wide campaign to mobilize workers for the national defense program.

"We have 50 local full-time employment offices in 46 of the larger towns of the state and, in addition, more than 100 itinerate points, visited weekly by representatives from these offices, the managers and staffs of which will cooperate fully in this campaign to register all available skilled workers in North Carolina who are not now in employment using their skills fully", Chairman Powell said.

The efforts are being directed primarily toward finding workers who are trained as airplane sheet metal workers, airplane woodworkers, aeronautical engineers and inspectors; ship carpenters loftsmen, boatbuilders, ship fitters, caulkers and marine mechanics; and machinists, tool makers, die makers, lathe operators and tool designers.

Also desired in this registration are workers with lesser skills who are available for training in schools now being operated and to be operated throughout the nation and who may be able, after such training, to qualify in the higher skills needed.

"We ask the press, the public to get a complete registration in and industry to cooperate with North Carolina", Mr. Powell said.

State Income Tax More Than 14 Million

Indications that North Carolina this fiscal year would realize \$14,000,000, from its income tax were seen today as it was announced that through yesterday, receipts had climbed a quarter of a million dollars above returns for the whole record-setting year of 1939-40.

Through yesterday, North Carolinians had paid \$12,232,991.88 on their 1940 incomes, compared with the \$12,007,105.64 collected in 1939-40.

Revenue Commissioner A. J. Maxwell said the total would certainly equal the \$13,500,000 anti-
