**LOVELY CHILD**  
Mother (to small son): "I'm so glad, Herbie, dear, that you're sitting quietly and not disturbing daddy while he takes his nap."  
Little Herbie: "Yes, mummy, I'm just watching his cigarette burn down to his fingers."

**George Carter Dies In Anderson, S. C.**  
News has been received by relatives here of the death of George Carter, of Anderson, S. C., who died Sunday morning from a sudden heart attack.  
Mr. Carter was the son of Mrs. Margaret Carter, the former Miss Margaret Gibson of Macon county and has a wide connection of close relatives in Macon and Swain counties.

**Change In CCC Standard Of Eligibility**  
There has been a revision concerning standards of eligibility in CCC regulations. The revision rescinds the six months rule governing the eligibility of a prior service applicant which makes him eligible for reselection if he has not been an enrolled member of the Civilian Conservation Corps for the immediately preceding three months.

A junior who has been honorably discharged because of a physical disability, not the result of his own misconduct, and who has since overcome such disabilities, in otherwise qualified, is eligible for reselection at any subsequent enrollment period.  
The change is effective as of May 1, 1941.

**CARD OF THANKS**  
We wish to thank our friends and neighbors for their kindness and sympathy shown us through the illness and death of our husband and father. Also for the beautiful floral offerings.  
MRS. DOC LINER AND FAMILY  
North Carolina's 1940 soybean crop of 1,282,000 bushels was an all-time record, reports the State Department of Agriculture.

**"The Next 100 Days!"**

John D. Biggers, director of the OPM production division, tells the House military affairs committee that America's safety depends entirely upon "the next 100 days" of defense output. He declared production has been impeded both by industry and labor alike.

**ADDITIONAL HIGHLANDS HIGHLIGHTS**

Mr. and Mrs. Austin Stewart of St. Louis, Mo., have rented the Frank B. Cook home on Bear Pen mountain for the summer and expect to arrive about the first of June.

Miss Minnie D. Warren of Pasadena, Calif., arrived Tuesday and has opened her summer home, The Hedges, on Satulah mountain for the season.

Mrs. Jamie Wotton, librarian at the University of Georgia, Athens, was the week-end guest of the Misses C. B. and Esther Elliott. From here Mrs. Wotton went to Atlanta to visit her son and daughter-in-law, Mr. and Mrs. Grigsby Wotton, and attend Grand opera.

John F. Staub, architect of Houston, Texas, was in Highlands for a short time last Sunday to see his cousin, Miss Albertina Staub. Mrs. Staub and her two children spent two summers some time ago at the Martin House, now Tricent Terrace.

Dennis Jackson of Macon, Ga., is visiting his brother and sister-in-law, Mr. and Mrs. O. H. Jackson, at Brookside Camp.

Mr. and Mrs. Carl H. Zoellner and family have moved into their new home on Foreman road recently purchased from Mrs. H. P. Dye of West Palm Beach, Fla. Mr. and Mrs. John Wesley Edwards have leased the former Zoellner home on West Main street.

Miss Ruth Carter passed the state examination for fire insurance license several weeks ago and is now assisting Miss Albertina Staub in her insurance and real estate business.

Mrs. Frank Hill of Highlands was taken to the Crawford W. Long Long hospital in Atlanta last Saturday where she will undergo treatment for a broken arm and wrist which she sustained recently. Her many friends wish for her a speedy recovery.

**State College Answers Timely Farm Questions**

Q. What is the best fertilizer for a home garden?  
A. The fertilizer used by many home gardeners, says H. R. Niswonger, State college extension horticulturist, is a commercial mixture of a 5-7-5 analysis. The amount required per 100 feet of row is 1 1/2 pounds where the rows are 12 inches apart, 3 pounds where the rows are 18 inches apart, 4 1/2 pounds where the rows are 24 inches apart, and 7 pounds where the rows are 36 inches apart. One pound of a 5-7-5 fertilizer will fill a one pint measure.

**High Tribute To Miss Ida Lee Hunter**

Mrs. Pearl Hunter, who teaches in the Franklin school, has received the following letter from the Navy Captain of Supply, Washington, D. C., under whom her daughter, Miss Ida Lee Hunter, has served, and which we are glad to publish as a high tribute to one of Macon county's young women.

My dear Mrs. Hunter:  
Your daughter, Miss Ida Lee Hunter, has recently been detached from duty here in the Washington Navy Yard and ordered to the Naval Air Station at Jacksonville, Fla., and I feel that it would be unfair not to inform you of how much she was appreciated by the Supply Department. Miss Hunter was efficient in her work, was always courteous and loyal. Above all she was everything that one should expect of a typical American young lady. If she ever wishes to return here for duty, I am sure that a place can be found for her and her return will be welcomed by all.

Very truly yours,  
C. H. Cope, Captain,  
(SC) U. S. Navy Supply Officer

**NYA CENTER TO EMPLOY 60**

**Defense Program Demands Increase; Projects Under Way**

The NYA home service center, which opened with 20 young women on April 17, will soon give employment to 60 instead of 40 originally designated for the project. According to Mrs. Margaret Ordway, county supervisor, this will increase the payroll to \$960 per month. A number of citizens and church groups have pledged assistance in providing sponsorship.

Since youth training to meet increased demand for defense workers has been made an important part of the defense program, NYA is becoming a major agency in the conduct of vocational and work programs.

At present, NYA is supplying clerical assistants to the following Macon county agencies: Home demonstration agent, farm agent, farm security administration and the health department.

**New Projects**  
Mr. and Mrs. Lawrence Ramsey have deeded to the county an ideal site for the community building, at Iotla work on which will begin Monday.

The NYA has two more community center projects in prospect.

**Rev. and Mrs. Rogers Teach B. T. U. Classes**

The Rev. and Mrs. C. F. Rogers were teachers of courses of study for the Baptist Training Union in Bryson City last week.

**Chevrolet Education Service Serves Million**

With the increasing emphasis upon mechanical training in modern life, motor-minded young Americans rank "tops" in the world in their comprehension of the machine—its construction and its possibilities. Thousands of public and private schools the country over offer courses in motor mechanics, and hundreds of schools and colleges are devoted entirely to instruction of this nature.

At present, more than 1,000,000 American boys and girls are receiving mechanical training based upon data compiled by a leading automotive manufacturer. Through its Educational Service, Chevrolet Motor Division, under the direction of M. E. Coyle, general manager, aids the student of mechanics by making available a broad range of material for mechanical training that is sound in every detail.

A total of 5,163 professors, teachers and instructors receive a monthly mailing from Chevrolet of latest mechanical and service information, comparable to that sent the more than 25,000 service men in Chevrolet's 8,500 dealerships. In addition, such data is provided directly to 592 colleges and universities, 1,272 high schools, 1,096 CCC camps, 367 trade schools, 67 Y. M. C. A.'s and 673 miscellaneous outlets.

To all parts of the world this information goes—including many schools in the Philippine Islands, several in Africa, Hawaii, Alaska, South America, and parts of Europe. Thousands of letters are handled annually by the Educational Service requesting additional material or praising that already received. Virtually every college and university in the country is represented in the department's files.

**4-H Clubsters To Learn And Demonstrate Best Uses Of Electricity**

Bona-fide 4-H clubsters of North Carolina have the go signal from the state leader to engage in the national 4-H rural electrification contest, and learn which of the 100 and more rural uses of electricity may profitably be used on their farms. Where current is not in use participants will ascertain what adaptation of it can be made. All contestants are encouraged to conduct demonstrations.

Examples of what can be achieved are these from last year's contest: An Oregon 4-H'er helped rewire and hang new fixtures for better lighting in a community church. A 17-year-old Oklahoma boy made a grindstone with a 3/4-horsepower electric motor from a washing machine, together with fly and pulley wheels from a worn-out engine. A Montana clubster wired his own, as well as 25 other homes and farmsteads. Illinois' 1940 topnotch 4-H electrical member made an electric fly trap by utilizing a 2,000-volt neon sign transformer, and built connections for an electric brooder with odds and ends. An electric basketball scoreboard for his high school was designed, constructed and wired by a Michigan youth. A West Virginia lad installed convenient switches for his farm's water pump, crib and hen laying house, and performed many other useful electrical jobs at home.

Rewards for outstanding achievements are provided by Westinghouse and include gold medals for county winners, all-expense trips to the National 4-H Club Congress in Chicago next November for recipients of State honors, and \$100 college scholarships for each of the six in the national blue award group.

Large cargoes of commodities destined for the United States are piling up on South America and Far Eastern docks as the lack of cargo carriers becomes more alarming.

**"White Elephant" Potato Exhibited By J. M. Corbin**

J. M. Corbin brought to The Press office Wednesday a most unusual potato which is on exhibition in the window. A young elephant head, with ears and trunk, is plainly suggested. Mr. Corbin also brought his famous old fiddle along and played a few tunes.
