

Electric Development Helps to Build COMMUNITY PROGRESS

A County or town progresses by the hard work and intelligent cooperation of its citizens using every resource at their command.

**The progress of this community has
been noteworthy.**

WE are proud of our share in this progress by endeavoring to furnish the citizens and industries with an electric power service that is dependable and at rates which compare favorably with other communities.

**WE CONGRATULATE THE FRANKLIN PRESS AND HIGHLANDS MACONIAN ON THE
TEN YEARS OF PROGRESS EDITION**

Nantahala Power & Light Co.
