BRUTAL ATTACK ON TOM LEACH

Simons And Bates Held Pending Outcome Of Injuries

Tom Leach, 73, well known Macon citizen, was brutally attacked Saturday night, July 26 between 8:45 and 10 o'clock by two or more assailants and received critical injuries. Two local boys, Arvil Simons and Tommy Bates are being held in the local jail without bond pending the outcome of Mr. Leach's injuries.

According to officers in charge of the investigation Mr. Leach was seen talking to Simons in front of the postoffice building shortly before 9 p. m. One witness states that she saw Mr. Leach and Simons start around to the rear of the postoffice building. Evidence has been found to show that a struggle took place on the grounds just behind the postoffice.

Police officials think that the victim was attacked there and then taken to a vacant lot behind Ray's store on Palmer street, where he was again beaten either with a pair of knucks or an iron bar. He was left here presumably in an unconscious state. Mr. Leach's pipe and false teeth were found behind the store. Also there was a large pool of blood and other signs of a struggle.

About 10 p. m. Mr. Leach came to the front of Ray's store and summoned aid. He was so badly mutilated that Mr. Ray, who has known Mr. Leach for many years, did not recognize him. John Dills, deputy sheriff, was summoned and he took the wounded man to Angel hospital where he received treatment for his injuries.

Dr. Ed Angel stated that at the time of his entrance into the hospital the patient's condition was very critical. He had received a fractured skull, a lacerated scalp, numerous face wounds and his right eye had been gouged out, besides the loss of a great amount of blood.

Dr. Angel stated yesterday, however, that Mr. Leach's condition was greatly improved and that he thought the patient would recover.

Simons and Bates are still being held in jail without bond. Both were arrested Sunday morning as Simons had been seen in company with Mr. Leach just prior to the time of his attack and at the time of his arrest a great many blood stains were found on his clothing. Bates had been a constant companion of Simons throughout the day and was seen with him between 8 and 9 o'clock Saturday night.

From there on out, he had them hog-tied and muffled as he struck out 16 of the 21 men that faced him. Audrey, new catcher for Franklin started at bat, getting four hits out of six trips to the plate.

Commissioner Of Indian Affairs Lauds Cherokee Tribe Administration

"The Cherokee Indians have a model of good government," said Mr. John Collier, commissioner of Indian affairs for the United States government. "Their government is based on a cooperative corporation which was one of the first of its type to be found in the United States.

The corporation buys land which is assigned to the members of the tribe according to their needs. If the owner does not use the land properly the land reverts to the tribe.

The Cherokee Indians have their own tribal courts, councils and legislature which regulate their own affairs. Their basic governmental principle is to distribute the tribe's resources according to the individual member's needs."

When questioned as to the growth of this country's Indian population the commissioner stated that the Indian population was increasing faster proportionally than any other race in the United States. This, however, is not true of the Cherokees, who have shown very little growth in the past 30 years.

"The Indian Reorganization Act passed in 1934 which has as its aim the promotion of local political and industrial democracy for the many different tribes has done more for the Indians than any other governmental act, the commissioner stated. Under this act the Indians are allowed to regulate their own domestic, political, and social problems while the federal government lends a hand with hospitals, schools, roads, and sometimes assists in buying land.

Mr. Collier, who has been Commissioner of Indian Affairs, since 1932 is vacationing in Franklin at the Franklin Lodge and Golf Course. He has been in this area several times before, but this is his first vacation here.
