Men Registering July 1 Subject To Same Rules As Previous Registrants

Men who registered under the Selective Training and Service Act on July 1 and whose order numbers were determined in the National Lottery on July 17 are subject to the same rules of individual classification as the youths who were enrolled previously. General J. Van B. Metts, state director of selective service, emphasized today. The National Lottery served as a guide for every local board to integrate its new registrants among

Naval Reserve Needs Skilled Craftsmen

The Navy Department announced today that there is still urgent need for men between 17 and 50, of good character, with or without previous Naval experience, who can furnish employment record or letters of recommendation showing their trade or vocation, such as electricians, radiomen, carpenters, shipfitters, printers, painters, machinists, diesel engine technicians, telegraphers, boilermakers, welders, molders, metalsmiths, stenographers, typists, pharmacists, cooks and bankers, may enlist as petty officers in Class V-6, U. S. Naval Reserve, with pay each month ranging from \$60 to \$157 a month. Men enlisting as petty officers in this class of Naval Reserve will be assigned to duties in their specialty.

Applicants from this section are urged to contact the nearest Navy Recruiting Station at Asheville, or, writing personally to Lt. Comdr. McFarland Wood, Officer-in-Charge, Navy Recruiting Station, Raleigh, for further details.

Selective Service Registration will not prevent anyone from volunteering for the Naval Reserve. Men in the Naval Reserve will be required to enlist for four years, or, as the Assistant Secretary of the Navy recently publicly stated: "Men enlisting in the Naval Reserve will be retained on active duty during the period of the emergency, but they will be released to inactive duty as soon after the emergency as their services can be spared, regardless of the number of years remaining in their enlistment."

Those who registered last autumn, and that integration must be carried out so that the recent registrants will consider their classification only in a fair and equitable ratio to those men not yet inducted.

"TARHELIA ON PARADE"

(Waynesville Mountaineer)
One of the most interesting and complimentary articles on North Carolina we have read in some time appears in the August edition of the "National Geographic" magazine under the above title.

The article is delightfully written and is profusely illustrated.

those who registered last autumn, and that integration must be carried out so that the recent registrants will consider their classification only in a fair and equitable ratio to those men not yet inducted.

Director Metts pointed out that it was obvious that the new registrants who had received relatively low order numbers would be classified sooner than those who had received the higher numbers.

"I'd like to stress the fact again," Director Metts said, "that there isn't any difference between treatment of the new registrants and the old registrants in any respect whatsoever. They are treated exactly alike. The same rules of deferment apply to both. Both have the same right of appeal. The interests of both are protected by the government in the same manner. And each case is considered individually when the registrant's order number comes up, regardless of whether he registered July 1 or previously."
