

**TVA To Show Picture On Erosion And Forestry**

The county agent's office has been successful in securing representatives from the Tennessee Valley Authority to come to Macon county to show moving pictures. These pictures will deal with erosion control and forestry practices. Every one should take advantage of this opportunity and see this picture when it comes to this county. The following schedule gives the time and place of each show.

September 8—Slagle School, 3:30 p. m.  
September 8—Otto School, 7:30 p. m.  
September 9—Higdonville School, 3:30 p. m.  
September 9—Holly Springs School, 7:30 p. m.  
September 10—Otter Creek School, 3:30 p. m.  
September 10—Covee School, 7:30 p. m.

Every one is invited to attend these picture shows as they will be both educational and interesting.

**Macon Will Send 12 Men To Fort Bragg Sept. 10**

Macon county will send 12 men to Fort Bragg on September 10 in answer to the 17th draft call, it was announced today by the Macon County Selective Service Board.

Carl Crisp, Gneiss, and Frank Elmer Swafford, Route 3, will enter the army as volunteers. The following men will be enrolled as selectees: Gus Leonard Tallent, Route 3; Philip Blumenthal, Franklin; Paul Westall Mashburn, Nantahala; Thomas McDowell, Dillard, Ga.; James Robert Hurst, Route 1; Lewie Raleigh Holland, Gneiss; Jack Huffman Potts, Highlands; Gernell Lee Moss, Gneiss; Zeb Verlin Jenkins, Etna.

Mrs. Gilmer A. Jones, secretary for the local board, announced that all questionnaires had been sent out but that it would be some time before the classifications were completed.

**Vacation Bible Schools And Revival Close**

The Rev. Philip L. Green has conducted vacation Bible schools in the six churches of the Franklin Methodist circuit during the summer months. The churches are, Bethel, Clark's Chapel, Iotla, Louisa, Salem and Snow Hill.

Approximately 250 pupils were enrolled. The schools continued for five weeks, and the pastor was assisted by Rev. J. Russell Andrews, a student at Duke University.

The Snow Hill revival closed Sunday night after a helpful and successful series of services. The Rev. J. A. Taylor of Sebring, Fla., was the evangelist.

**Enka Dance Team To Appear In Highlands On September 3rd**

The Enka Square Dance team that wrested the championship from the famous Soco Gap team this year, will make its first appearance in Highlands at Helen's Barn on Wednesday night, September 3, in smooth and different style exhibition dances.

This team won first prize at the Cherokee Indian Fair two years ago and has been champion of Canton Labor Day celebration for the last three years. It is the only team from Asheville to be invited to White Top Festival in Virginia last year and again this year. During this month the Enka team has been giving exhibition dances in Washington, D. C.

**? Which Way Is Your Herd Headed ?**

**To A Scrubby Future** Scrub bulls sire only scrub cows. Scrub cows provide a scrubby existence for their owners. Only high-producing cows produce a profit. Only bulls with inheritance for high production can sire high-producing, profit-making cows. Such good herdsires can best be found in the production-tested purebred herds.

**To A Profitable Future**

County Agent Sam Mendenhall says, "There is no excuse for having scrub dairy cattle in Macon county since it is possible to secure purebred Guernsey bull calves at no cost from A. B. Slagle's outstanding dairy herd."

**Dr. Reynolds Warns Of Venereal Disease In Army Camps**

Dr. Carl V. Reynolds, state health officer, has issued a statement upon his return from six of the eight counties where fall army maneuvers are to be held, where he contacted local officials as well as army officers from Fort Bragg.

"About two years ago North Carolina put on an intensive campaign against venereal disease and has since established nearly 300 clinics where sufferers can secure treatment, free, until cured. This program has been prosecuted with gratifying results, materially lowering the infection rate and the incidence of syphilis in this state.

"It was not our purpose to censure or persecute any person or persons or localities. We were convinced, however, that a truthful statement, backed by official and authoritative evidence, should be publicized, let the chips fall where they might.

"To allow prostitution and houses of prostitution to flourish places a premium on venereal diseases. It causes the registrant who has a venereal disease to be rejected—and perhaps makes your boy next in line to take his place.

**Law Enforcement Urged**

The health officer and his personnel are not law enforcement agencies. It is the law enforcement agencies' sworn duty and obligation to society to seek and secure evidence of law violators.

"Law enforcement officers do, as is common knowledge, follow up the man who assaults another with a deadly weapon, the thief, the hit and run driver, and they do not cease their activities until these culprits are apprehended, brought to justice, tried and, when convicted, sentenced.

"Think for a moment and answer this question to yourself: "Is not a prostitute, of whom from 90 to 97 per cent are suffering with a venereal disease and intermittently infectious, doing a greater injury to society than any of the above offenders?"

"The greatest enemy to mankind is the spirochete, (syphilis germ) the gonococcus (gonorrhoea germ). Think, if you please, that more man days are lost in the army today at Fort Bragg due to venereal disease than from any other cause. From 15 to 20 per cent of the hospital beds at Fort Bragg are occupied at this very moment by men with this crippling disease.

"It is the duty of state, county and local health officials to make known these facts. Surely the civilian population and the soldiers should be given every legal protection against venereal disease."

**Commissioners Answer Bond Issue Questions**

(Continued from Page One)

vide sufficient office space and save this expense?

Yes.

24. How does our Courthouse compare with other courthouses in regard to sufficiency of space, fire protection for its records, and sanitary conditions?

It has been stated by prominent judges and others that the courthouse in Macon county is the most inadequate courthouse in the state. This building is now 60 years old and was built before the requirements for adequate fire protection for records and sanitation was considered essential. It is impossible to provide these facilities in the present building. While this building provided in an adequate manner for the business of Macon county almost three-quarters of a century ago, it does not and cannot provide for the requirements of the county government now. In the opinion of the Board of Commissioners, it is absolutely necessary to provide modern facilities to meet the modern requirements of government.

25. Does this project contemplate only a courthouse or a new courthouse and jail?

The project contemplates both adequate office facilities, courthouse facilities and jail facilities, which in the opinion of the Board will meet the requirements of Macon county for the next 50 years or longer.

26. To whom does the property upon which the jail is situated belong?

The property upon which the present jail is now standing is owned by Macon county in fee simple absolutely, and can be disposed of as any other property owned by Macon county.

27. How many escapes have occurred within the last 24 months?

Nine.

28. Does our present jail comply with the state law in regard to its different compartments?

It does not and the same has been heretofore condemned by both the department of health and the department of public welfare. Its condition is such that the Federal authorities will under no circumstances allow their prisoners to be kept there.

The Board of County Commissioners of Macon county, realizing the need for a new courthouse and jail facilities have presented the matter to the voters of Macon county for their consideration. The Board feels that certainly within a very few years the county is going to have to provide both adequate jail and office facilities for the county government. It feels that if it can obtain from the Federal Government from 65 to 70 per cent of the total cost of the project that the taxpayers of Macon county will have received great aid and assistance which at a later date might not be available. If we should wait until a later date, and even though no disaster occurred to the tax records, deed records or other public records of the county, and then be required to build out of our own resources a courthouse and jail adequate to meet the needs of this county, without government assistance, the tax burden might be considerable. We have tried to show that if we can get the government aid at the present time that this building can be erected without any increase in our tax rate. The Board of County Commissioners has no personal interest

**Carlisle Bros. Give Show At Cowee Schoolhouse**

The Carlisle Brothers, featuring "Hotshot Elmer" will present their show at the Cowee schoolhouse on September 3. The performance is being sponsored by the Cowee Athletic Club.

**PROTECTION**

For over two years this Committee has waged its "Clean Up or Close Up" campaign to protect the legitimate beer retailing business by eliminating those few undesirables who use their beer licenses as a cloak for unlawful activities.

Law enforcement agencies and the brewing industry both recognize that no program can be entirely successful without the approval and active support of law-abiding citizens.

We ask your cooperation in this work. Please do not patronize beer outlets that tolerate anti-social practices—that compromise ethical conduct.
