America's War Victims Appeal for Your Help

First war poster of the new World War, painted by the distinguished artist James Montgomery Flagg, carries an appeal for a \$50,000,000 war fund to aid the victims of aggression upon the United States and its island possessions.

To aid the victims of warfare being waged upon America and her island possessions, the American Red Cross has issued an appeal for \$50,000,000 war fund. Chairman Norman H. Davis announced from the national headquarters in Washington.

Mr. Davis urged men, women and children to give to this mercy fund through their local Red Cross Chapters. These funds will support the Chapter's war work with the families of men in the military services, as well as the broad relief program of the national Red Cross.

President Roosevelt, who is president of the American Red Cross, issued a proclamation urging all citizens to give to the Red Cross war fund.

In launching the appeal, Chairman Davis said:

"There are millions of our citizens who desire today to demonstrate their will to victory over the enemy. Not all can be in the armed forces, and not all can volunteer their services for humanitarian work, but all can volunteer their dollars to arm the Red Cross to be their representative at the scene of battle and distress.

"Today is the day to demonstrate our high morale, our unity, our determination not alone to support our President and our fighting men at the front, but also to assure our wounded, homeless and suffering fellow citizens in our Pacific Islands that we stand one hundred per cent ready to aid them through the Red Cross."

W. N. C. Food For Freedom Far Exceeds 1941 Goal

By J. C. LYNN, District Farm Agt.

Western North Carolina farmers have gone far beyond the goals asked for by the U. S. department of agriculture in the food for freedom campaign just completed. Reports indicate that the milk production will be 20 per cent over 1941. There are corresponding increases in poultry and eggs, soybeans for oil, hogs for slaughter, and home gardens.

Farmers should realize that the government is depending on these promised increases and every effort should be made to reach the goals. The neighborhood and community leaders elected over W. N. C. will visit each farm during the next few weeks to assist farmers in planning for the 1942 program.

Dairy And Poultry Increase
The proposed increase in the number of dairy cows will be reached only if farmers start saving their better dairy heifers. Too many good dairy heifers are being sold as veals. If feed is available, it will prove profitable to grow these better heifers calves out for sale as herd heifers or milk cows.

Farmers should place their orders now for baby chicks. Care should be taken to get chicks of high quality from breeding stock with egg laying ability. C. F. Parrish has said, "The number of eggs a

hen can lay is determined by breeding; the number of eggs she will lay is determined by feeding and management." This is a very true statement and should be considered in buying baby chicks. Get chicks from hatcheries in North Carolina. Don't order chicks from the Middle West. The length of time in transit and difference in climate makes a difference with day-old chicks. See your county agent for an approved list of North Carolina hatcheries. Buy the best.

Machinery Parts
This spring and summer farmers will be faced with a shortage of farm machinery and parts; if orders are not placed at once with their local dealer. Iron and steel formerly used for farm tools is being used for national defense. Farmers are asked to check their tools at once and place their orders for all anticipated needs for 1942. The local dealer must have your signed order.

Before selling scrap iron, farmers should make sure there are no bolts or taps on the scrap pieces that might be used in repairing farm machinery.

Farmers should start gathering their scrap iron and steel for sale to the junk dealers. For details see your county agent.

Red Cross Drive

For War Relief Will Be January 10

Chairman Harley Cabe has announced that Macon county's quota for the Red Cross War Relief will be completed in a final drive on January 12. He has issued the following statement:

Since the National American Red Cross asked for \$1500 from this chapter to meet a \$50,000,000 War Relief Fund contributions have been coming in without any particular effort or solicitation, and to date we have approximately \$350 plus pledges, but to meet a quota of \$15000 is going to take some effort and some money.

If all the people of this county would contribute a small amount our quota could be easily reached. I am setting January 10 as the goal for raising this amount, and I am requesting all people who wish to have a part in helping the distressed of war stricken areas, to leave their contribution at Perry's Drug Store, The Franklin Press office, The Bank of Franklin, or at the Clerk of Court's office.

Several of the Chapters in the Western District have already reached their quota, let us not be the last.
