Income Tax Instructions

Federal Income Tax returns are now demanding the attention of millions of American citizens. The deadline for filing your return is March 15.

Every single person making \$750 or over per year and every married person making \$1500 or over per year must file a tax return. This does not mean that you will pay any income tax. A single person who has exemptions which bring his net income below \$750 need pay no tax. Likewise a married person who has exemptions which bring his net income below \$1500 need pay no tax. But in both cases, a return should be filed.

Every citizen is entitled to legal deductions from his gross income. Some of these are: taxes on state, county or city real and personal property, automobile licenses, driver's license, State of Kentucky taxes on your bank account (if you are lucky enough to have one), and state gasoline tax. You may deduct gifts to religious and charitable organizations, such as your church, the Red Cross, the Community Fund, the Y. M. C. A., the Y. W. C. A., etc.

If you are a member of a labor organization, you can deduct your initiation fees, union dues, and special assessment fees.

Usually, you may deduct any interest you have paid on your borrowings. If you have purchased your home on the installment plan, you may deduct the interest paid. Other deductions allowed are: thefts not covered by insurance, damage to your automobile caused by fire, storm, icy roads, or damages in collision, if not due to your negligence and not covered by insurance.

Lawyers, doctors, clergymen, and teachers may deduct dues paid to professional organizations and expenses in connection with attending professional conventions.

You may pay your tax in full March 15, or you may pay it in four quarterly installments. There is no additional charge if you choose to pay on the installment basis.

If you are in the income tax group and have not received a federal tax blank through the mail or otherwise, be sure and secure one and return it on or before March 15. This is important.
