Navy Announces

It has been said that war has the effect of discouraging young men from going to college, but the Navy places more importance than ever on higher education in war time.
In support of this, the Navy Department announces plans for a new V-1 program which includes a whirlwind campaign to acquaint the nation's educators with the Navy's vast officer procurement program under which 80,000 college freshmen and sophomores will be recruited annually. These students will be enlisted as apprentice Seamen in the U. S. Naval Reserve. They will be allowed to continue their college education at their own expense, at least until the end of their second college year, and in some cases until they receive their degrees.

4-Hers To Raise Million Home Gardens for Victory

One Million 4-H Gardens! That is the goal set by 4-H Club boys and girls on farms, and in towns, villages and hamlets in every section of the United States, to help win the war.
In addition to contributing to the nation's "food for freedom" drive, the clubsters will have the opportunity to win special recognition for meritorious service in the national 4-H garden contest, in which awards provided by Sears, Roebuck will be given for outstanding achievements in gardening. These awards include coveted Defense Bonds.
Gold-filled medals will be given five representatives of the blue award group in each county. Four selected from the county winners in a State will each receive a \$25 Defense Bond. One of the four State representatives will be considered in selecting sectional and national winners. There will be eight of the latter, comprising the two highest scoring participants in each of the four extension sections, each of whom will receive an all-expense trip to the National 4-H Club Congress in Chicago next November, and a \$100 Defense Bond. The contest will be supervised by the extension service.
