### GARDEN CLUB HEARS TALK ON INDIA BY MRS. SMITH

The Garden club meeting with Mrs. Henderson Calloway enjoyed a rare treat last Monday afternoon when they were addressed by Mrs. John Smith of Sylva, who has recently returned from India. Mrs. Smith is the daughter of Dr. Charles Z. Candler, of Sylva, and has lived in India where Mr. Smith, who lived in Franklin at one time, was a representative of the Standard Oil Company.

The speaker first took her hearers on a tour of the cities of India with many sidelights on the people, their customs, and political conditions related to the war. She recounted her experience in caring for wounded in Bombay as they were brought from the shambles of Singapore, and the crowded, dangerous voyage back to the United States on an armed merchantman under convoy. There were several babies only a few days old among the 500 passengers, she said and an attack by a submarine was among the experiences of their voyage across the Pacific. She explained that the convoy changed as they proceeded with different ships doing patrol in certain areas.

Mrs. Calloway was assisted in entertaining by Mrs. R. M. Kimmmer and Mrs. Frank Higdon.

### Nina Martin Concocts Sugarless Rhubarb Pie

For a perfect sugarless recipe here is one that is as timely as it is delicious. Lunching at Kelly's Tea Room, always a pleasant interlude to a busy day, prompts the guest to ask how the rhubarb pie can be concocted when sugar is rationed. Here is the way Miss Lassie's cook does it:

**Rhubarb And Honey Pie**  
(By Nina Martin)  
2 cups rhubarb, cut fine.  
2 cups honey  
1/4 cup raisins (seedless)  
1/4 lb. butter, 1 table spoon flour  
Line pan with rich pastry. Fill with rhubarb and raisins, sprinkling flour and cutting up butter over top. Pour honey over all, and make a lattice top with pastry. Bake.

### Bottled Health

### Employment Increase Of Older Persons

RALEIGH, May 6—More than 41,000 placements of persons 40 years old and older, men and women, were made in North Carolina during the year 1941 by the U. S. Employment Service, it is announced by R. Mayne Albright, director for North Carolina in connection with the observance this week of "National Employment Week."

The placements in 1941 almost doubled those of 1940, when jobs were found in the State or 24,130 persons of 40 years of age or more, while a large part of this is due to increased employment during the three years, the percentage of placements of persons of 40 or more years has steadily increased from 21.4 per cent of the total placements in 1939 to 22.7 per cent in 1940 and 23.0 per cent in 1941.

The great increase in numbers and the steady increase in percentages of the total can be attributed, in part at least to those observance of National Employment Week and the stressing of the importance by President Roosevelt, Governor Hoey, and Governor Broughton in the past three years of finding jobs for older workers, especially war veterans.

### Strange Eggs Brought To Press

Laura Bell Allen, 12, of this vicinity, who raises chickens as a hobby was very much surprised to find that one of her Hampshire Reds had outdone herself in laying an enormous egg twice the size of an ordinary one. What's more, it had distinct, even ridges etched in its massive shell.

Last week, Mrs. Ida Southards of Franklin Rt. 3, brought another most extraordinary egg into the Press office. This was a two-toned egg, of dark and light shades. A Hampshire Red was responsible.

Many of the men who have been making golf clubs soon will be building antennae for army radios.

One broken five-pound flat iron contains enough iron to make four hard grenades.

WPB's order halting the production of golf clubs will save 34,000.

### Mother's Day

This year, Mother's Day takes on a different significance. The son in the armed forces thinks of his mother as a personal symbol of the way of life he and his comrades must protect.

Let us not forget for a moment that we must all act in this emergency in a manner that our children can remember with pride.
