

**NOTICE TO ALL SUBSCRIBERS**

Because of increased cost in material and labor, The Franklin Press and The Highlands Maconian is forced to follow other newspapers in increasing its yearly subscription rates from \$1.50 to \$2.00; six months, \$1.00; three months, 60 cents—effective September 1.

However, it is our pleasure to continue to send the home paper to our men in the armed forces for one year for 90 cents. A small advance in the price of commercial printing and office supplies is also necessary, as long as present conditions exist.

We wish to thank our patrons for their past favors and to assure them that, under all circumstances they will receive "dollar-for-dollar" value as before.

A parting thought is suggested. How much would a resident or tourist lover of Highlands give to possess a copy of that old Harper's magazine?

### V-Mail

**Service Outside U. S. A. Now Available**

The Franklin postoffice is now supplying the forms upon which messages may be sent to men in the armed forces stationed at certain points outside the continental United States. This V-Mail service, as it is called, is available to and from the personnel stationed outside the country.

The message must be written briefly and clearly on the inside of a sheet of paper, 8½ by 11 inches, upon which full directions for folding, addressing, sealing and mailing are printed. The message written will be transmitted by making a miniature negative of the writing. This makes possible the sending of all mail addressed to the armed forces overseas, which would be impossible on account of the bulk of ordinary letters.

T. W. Porter, Franklin postmaster, requests all persons writing to their men stationed outside continental U. S. A. to secure these forms from the post-office.

### FINLEY CALLED INTO SERVICE

#### J. F. Pugh To Succeed To Principalship Of Franklin Schools

W. H. Finley, principal of the Franklin schools, received a wire last Saturday calling him to active service in the Army. He will leave August 28 for the Army base at Boca Raton, Fla., about 30 miles north of Miami.

Mrs. Finley and the two children will reside at her home in Anderson, S. C., for the present, Lieut. Finley said.

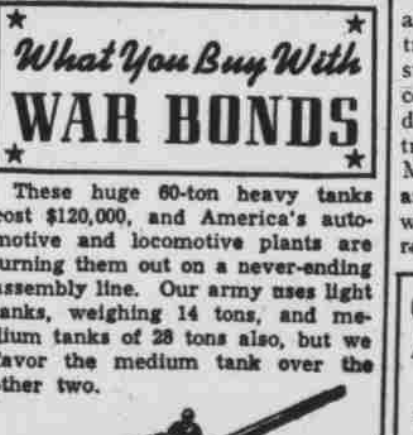

During their six years of residence here the Finleys have made many friends who regret to see them leave. Lieut. Finley is a graduate of Clemson college and came to Franklin as teacher of vocational agriculture. He has served in the capacity of principal for the last three years.

This loss to the Macon school system on the eve of the opening of the Fall session is an example of the difficulties faced by this and other schools at this time. Supt. Houk announced today that he has just received the acceptance of J. F. Pugh of Red Springs to succeed Lieut. Finley.

Mr. Pugh comes to the work with high recommendation from J. Henry Highsmith, director of the division of instructional service in the North Carolina Department of Public Instruction, Raleigh, to whom Mr. Houk applied at once to fill the vacancy. In a letter to Mr. Houk, Dr. Highsmith stated: "I think you would be very fortunate indeed to secure Mr. Pugh's services." These include three years as principal of the Red Springs High school and two years as superintendent of Robeson county school.

### What You Buy With WAR BONDS

These huge 60-ton heavy tanks cost \$120,000, and America's automotive and locomotive plants are turning them out on a never-ending assembly line. Our army uses light tanks, weighing 14 tons, and medium tanks of 28 tons also, but we favor the medium tank over the other two.

These heavy tanks are needed for certain phases of modern warfare, and with their thick armor and heavy-gauge guns they are almost unstopable. They are considered superior in gun power, in maneuverability and in the power of their huge tractor motors to Axis tanks. Americans everywhere are helping to pay for these monsters of war through their purchase of War Bonds. Invest at least ten percent of your income in War Bonds every pay day.

### Crimson Clover Seed Available For Farmers

We are glad to announce to the farmers of Macon county that we have received another shipment of crimson clover seed. Any cooperating farmer in the Soil Conservation program may secure some of this seed, even though he may have taken up all his allowance in lime or phosphate.

However, the lime or phosphate must have been spread before it is possible to secure any of this crimson clover seed. Any person desiring to secure any of this crimson clover seed should come by the county agent's office immediately, as it is important to get this seed in the ground as soon as possible.

Sam Mendenhall,  
County Agent.

### Class III-A Registrants Eligible For Officers' Training Schools

Opportunities still exist for Class III-A registrants, deferred for dependency only, to apply for Officer-candidate training, it was announced today by state headquarters of Selective Service through the local draft board.

The capacity of officer candidate schools has been doubled since January. Inaugurated in July, 1941, with a program which called for the training of 10,000 officer candidates, these schools are now prepared to turn out approximately that number every two weeks.

Registrants now classified in III-A who are interested in applying for officer-candidate training are urged to communicate with their respective local boards immediately. All boards are in possession of full details and will be glad to advise prospective candidates for the requirements.

Following is a list of officer-candidate schools now in operation: The Adjutant General's, Anti-aircraft Artillery, Air Force Administrative, Armored Force, Cavalry, Chemical Warfare Service, Coast Artillery (Seacoast), Engineers, Field Artillery, Finance, Medical Administrative Corps, Military Police, Ordnance, Quartermaster, Signal Corps and Tank Destroyer.

### Women's Salvage Chm'n. Urges Saving Of Fats

At a joint meeting of home demonstration council members of Macon and Swain counties held at the Agricultural building Friday, August 7, thirty-five women were present to hear Mrs. Estelle T. Smith of State college.

Mrs. Smith is assistant to the State home agent and also chairman of the women's division of the State Salvage committee. Those present were urged to participate in all salvage campaigns, especially in the waste fats to make explosives. Mrs. Smith stated that it was economical to use all fats in the home for the making of soaps, but that less fats could be used for seasoning in most homes.

Homemakers were asked to pour all fats in wide-mouth cans, keep fat in a container until a pound has been collected, then take this fat to a meat dealer. If fats are kept until rancid, the glycerine content is reduced.

At Farm and Home week held at State college in the past, Mrs. Smith has given courses in the proper methods of conducting meetings. Special points in parliamentary law were taken up at the Friday meeting.

Mrs. J. S. Ray, president of the Macon council, was in charge of the meeting.

Eleven of the fifteen home demonstration clubs in Macon county were represented by one or more members.

### Another 'Little Red Hen' Does More Than Duty

Robert Ramsey of Tellico has added the last curiosity to the collection of rarities displayed in The Franklin Press window.

Last week he brought to the Farmers' Federation a huge egg, weighing five ounces—about three times the size of a normal egg (and four times the size of some we are buying these days). It was presumably laid by a New Hampshire Red hen.
