Our Great America *by Tryon*

IN BOUNTIFUL AMERICA—THERE ARE ABOUT 350,000,000 ACRES DEVOTED TO THE GROWING OF FOOD AND TEXTILE CROPS, AND THERE ARE ABOUT TWICE THAT MANY ACRES WHICH, IN ADDITION, ARE DEVOTED TO THE GROWING OF TREES!

ALTHOUGH THE U.S. GOVERNMENT COLLECTS 10% OF ALL MONEY PAID FOR MOVIE TICKETS... AND IT IS ESTIMATED THAT ABOUT 90,000,000 PEOPLE ATTEND THE MOVIES EACH WEEK... IT TAKES OVER TWO YEARS TO COLLECT ENOUGH MONEY AT THE BOX OFFICE TO BUILD ONE BATTLESHIP

BEFORE WORLD WAR I, THE U.S. IMPORTED 90% OF THE DYES USED IN THIS COUNTRY... AMERICAN INVENTIVENESS CHANGED THAT... TODAY THE U.S. MAKES 95% OF ITS OWN DYES

HONEY HINTS
By RUTH CURRENT

Honey is prized for its distinctive flavor and delicate sweetness. When you cook with honey, remember that it is part water. Replace sugar with honey, cup for cup, but use one-half the quantity of other liquid called for. For example, if the original recipe called for one cup sugar and one cup milk, use one cup honey and 1/2 cup milk. Other ingredients remain the same.

When honey is used in cakes and quick breads, be sure to bake at the lowest temperature possible so the honey won't scorch. Honey takes up moisture as it stands. It is not so good for candies and frostings unless they are eaten at once.

Honey will keep fruit cakes and steamed puddings moist. Honey is good for a sandwich filling—creamed with butter, nuts, grated orange peel, cream cheese or peanut butter.

Honey, like other forms of sugar, supplies energy to the body.

A time-saving frosting: For delicious cookie frosting that takes little time to make, melt 8 chocolate-covered peppermints in double boiler. Stir well and add one teaspoon cream. Stir again and spread on cookies.

There is just one trick to cheese cookery and that is, never "cook" the cheese—just melt it. Otherwise it may become tough and stringy. Shave it thin or grate it so it will blend better and faster with other foods. Did you ever use cheese in your soup. Soup season is almost here, so why not grate cheese fine and sprinkle plentifully into cream of onion, tomato or potato soup. From soup to dessert, cheese will improve the flavor and goodness of any meal.

The right to COME and GO when we please

THIS is a fight-to-the-finish we are in—a grim war for survival. The stakes are the highest in all the history of mankind. And one of them is the American's traditional right to come and go when he pleases.

Our enemies say that they will erase this birthright of ours; that they'll tell us when we can come and go. But they'll find that it's easier said than done.

No goose-stepping Nazi; no squint-eyed Jap is going to tell Americans that they can't run down to the seashore or vacation in the mountains or take the children to visit Aunt Mary back home. For we are going to win this war!

How? With the bravery and the brilliance of our men in uniform. With the toil and sweat of millions of loyal workers in forest, field, factory and mine. With our genius for invention, organization and production. With the willing sacrifices of every patriotic American.

Yes, we will win this war—even if we have to lay aside for awhile our right to come and go when we please.

That's why the officers and employees of the Southern Railway System have solemnly pledged their all to the winning of the war. That's why our entire transportation plant; all our resources of man-power and experience are enlisted for the duration in the service of the nation. That's why we put the transportation needs of Uncle Sam first—before any and every civilian need—that your right to come and go when you please may be preserved for you and for the generations of Americans yet to come.

In the first seven months of this year we have carried almost 600,000 men in uniform, all moving under orders. They traveled in 24,915 coaches and Pullmans; in 1,564 special trains and 5,563 extra cars attached to our regular passenger trains. And these figures do not include the additional hundreds of thousands who have traveled over our lines on furlough or in small groups on transfer orders.

That's why our trains are often late—troop trains and war freight have the right of way. That's why they are often crowded—so many boys want to visit home at the same time. That's why we have pressed old coaches into service—in our desperate effort to help everyone to come and go when they please. That's why we have had to lower temporarily the standards of service of which we have been so proud. And that's the way we know you want it to be.

Your willing sacrifices of some travel comforts and conveniences are more than a personal contribution to the war effort. They are an inspiration to those of us who railroad to plan for the day when victory comes; to plan for a better Southern Railway System better to "Serve the South". For, with victory, we know that a new day will come to our Southland; a new day of prosperity and happiness and peace; a new day with freedom to come and go when you please.

That is worth fighting for!
