For Meats, Etc.—Red Stamps J. K. L., good through June 30.

FUEL OIL

Period 5 coupons valid in all zones until September 30.

SHOES

No. 17 Stamp in War Ration Book One good for one pair through June 15. Stamp No. 18—1 pair—will become valid June 16.

Black Market

It is estimated that 25 percent of all cattle slaughtered in the last three months has gone into black markets.

EXTRA MEAT RATIONS

Loggers, miners, fishermen, and others who live or work far from population centers and who cannot supplant their meats-fats rations with fresh fish, poultry, and eggs can get extra points for rationed meats and fats by two new OPA amendments.

Freezer Locker

Secretary of Agriculture Wickard has a freezer locker on his farm full of meat. It is hoped that the price of these lockers can be reduced through mass production, so that many farmers will be able to get them after the war.

Chicken Deaths Reduced By Breeding

Selecting chickens for livability rather than altogether for high egg production has brought about a new era in poultry breeding, says Dr. C. H. Boston, associate in poultry science at the Agricultural Experiment Station, N. C. State College.

Under ordinary conditions many poultrymen lose about 25 percent of their pullets during the first year. In a test conducted by Boston, where matings were made from stock not bred for improved livability, the loss was 28 percent. With another group of birds, kept under exactly the same conditions but from matings selected for improved livability, the loss was only 11 percent.

Boston says that these, and other investigations show clearly that livability can be improved by breeding and suggests that poultrymen take advantage of this fact in purchasing replacement stock.

In commenting on the tests, Boston reports that some poultrymen have been culling frequently and carefully to avoid some mortality. He points out, however, that every cull represents a loss in feed consumed, housing space used, and labor expended. Since many culls would die if they were not removed, they may be considered the same as mortality.

Under feed shortage conditions, the fact that mortality in chickens can be considerably reduced through improved methods of breeding is of great significance.

ANOTHER MACON GUERNSEY MAKES RECORD

PETERSBOROUGH, N. H.—A daughter of the registered Guernsey sire, Slagle's Gift, last owned by Meryl Moody, Franklin, N. C., has completed an official Advanced Register record. Eleanor's Spotty produced 13515.0 pounds of milk and 5.5 pounds of butter fat for H. Hur Osborne, Canton, N. C.

What You Buy With WAR BONDS

Torpedo Junction

"Awash amidship!" "Sparks," the radio operator, has sent his final message from another U-boat victim. The lifeboats are pulling away from the doomed vessel as millions of dollars' worth of food, supplies and munitions settle to the ocean bottom in another allied catastrophe in the Battle of the Atlantic.

Millions of dollars' worth of material that was paid for by the dollars we saved and invested in War Bonds. Thousands of man hours have been lost.

We can have but one answer: work harder, save more and invest more frequently in War Bonds.

U. S. Treasury Department

What You Buy With WAR BONDS

Mosquito Bar

Among the casualties returning to the United States from the Solomon Islands are men who have lost their hearing, not from injury, not from shock, but from attack by insects upon men who have been without mosquito bar protection.

We'll never know how many lives this mosquito bar has saved and you probably never will know just how much good your purchases of War Bonds have done, but you should know that regular and increasing purchases are necessary.

U. S. Treasury Department

Battle Wagons

When Japan attacked at Pearl Harbor we had 17 battleships in service and 15 building. We were making preparations but the war did not wait. These 32 battle wagons cost American taxpayers three billion dollars for a two ocean navy. The war seemed far away then.

Now fifty million Americans have a personal stake in this war. It has been brought home to them. That's why everyone is increasing purchases of War Bonds.

U. S. Treasury Department

Wigwag

Frequently the Navy, the Coast Guard and the Signal Corps find it expedient to relay messages without benefit of telephone, telegraph or radio. That is when the semaphore system is employed.

Like a single flag in the "Wigwag" system, the purchase of a War Savings Stamp or Bond, in itself has an infinitesimal effect upon the entire war effort, but when 130 million determined people set their minds to make our War Bond drives successful, the result is anything but infinitesimal.

U. S. Treasury Department

Wags!

No quadruped of the K9 contingent used by the Marines, the Army or the Coast Guard is purchased. They're strictly volunteers for the duration, loaned by their masters and mistresses. These dogs are taught to hear and smell and see enemies where humans cannot. They are invaluable at night.

Several K9 training stations are maintained by various branches of our fighting services.

You may not have a dog to send to war but you can send your money. Buy War Bonds.

U. S. Treasury Department

Invasion Is Costly fighting

Your Boy Gives 100 per cent; How about your bond buying?

Are you fighting mad about this war? Does it mean anything to you personally? Then dig down and buy more and more War Bonds.

For Freedom's Sake

Code Of A Good Woodsman

THE National Forests are public property, available without charge to the public for educational, inspirational, and recreational purposes. They are administered by the Forest Service, U. S. Department of Agriculture, with the fewest possible restrictions that will safeguard the various natural resources from abuse, damage, or destruction.

These restrictions are as follows, and are based on "The code of a good woodsman, camper or tourist when he goes into the forest"

(1) Build a fire only when necessary; then build a small fire on a site near water after all inflammable material down to mineral soil has been removed from a spot 5 feet in diameter.

(2) Before leaving a fire, even for a short time, extinguish it with water and cover the ashes with earth.

(3) Do not throw away lighted matches, cigar or cigarette ends, or pipe heels. Drop them in damp mineral soil. Step on them!

(4) Keep camp clean. Where garbage pits and incinerators are not provided burn or bury all garbage and refuse.

(5) Do not pollute the springs, streams, or lakes, by insanitary acts.

(6) Do not mutilate or destroy the trees and shrubbery or the signs and improvements.

(7) Do not hunt or discharge firearms in the vicinity of forest camps and habitations.

(8) You are permitted to hunt and fish on Government-owned land, unless it is specifically closed and posted against such use, but subject to the State Fish and Game Laws.

Information may be obtained from any forest officer.

Everybody is ignorant, only on different subjects.

—WILL ROGERS.

What You Buy With WAR BONDS

Free the Seas

Before we win the final battle with Hitler's Nazis all navy men are agreed we must win the battle of the Atlantic; that is to free the sea lanes of the German U-boats.

A year ago we were building 54 cruisers and nearly 200 destroyers or just about enough for a two ocean navy.

Now we have come to realize that this war is to the finish, "winner take all," and our Government is building a five ocean navy.

That is why we are being asked to increase our subscriptions for War Bonds. That is why we must do it.

U. S. Treasury Department

At The Theatre

"Reap the Wild Wind", exciting drama of the treacherous Florida reefs plays here Thursday and Friday of next week in a return engagement. This brilliant technicolor production starring Ray Milland, Paulette Goddard, and John Wayne is rated as one of Cecil B. DeMille's best.

Sunday and Monday bring "Hello, Frisco, Hello"—another technicolor picture which promises entertainment for all, with its top-notch cast of Alice Faye, John Payne, Jack Oakie and Lynn Bari. "My Heart Belongs to Daddy", a rollicking comedy contrasts markedly with the heroic story of daredevil fliers presented in "Flying Tigers", appearing on a double feature program Tuesday and Wednesday.

Feed

Dr. E. R. Collins, N. C. State College, advises growers to plant extra acres of soybeans, cowpeas, sorghum, and millet because of increased production of livestock and lower quantities of feed.

EXTRA FINE HOME-MADE BUTTER

Made by Mrs. John Cunningham, Miss Fay Byrd of the E. B. Byrd farm, Mrs. Grace Gibson and other fine Macon County farm women.

SPECIAL PRICE FOR LIMITED TIME 35c PER POUND
Absolutely fresh and Best Quality — FRESH VEGETABLES
Reasonable Prices.
