SURGICAL DRESSING WORKERS NEEDED

Red Cross surgical dressings supervisors held their last meeting at the home of Mrs. Allan Brooks, to discuss the work and talk over problems. An effort is being made to stimulate and renew interest in this vital war work, for although the work here is going beautifully the entire Eastern area is behind in its quota.

Mrs. Ed Carpenter and Mrs. John Archer were added to the list of active supervisors.

For those interested in furthering the war effort in this way the Red Cross room is open Tuesday through Friday from 2 until 5 p. m., and Friday night at 7:30.

"I call this a Statue of Liberty, too!"

"IT'S a weird-looking contraption, I'll admit. But when you think what aviation gasoline and synthetic rubber mean right now, it begins to look pretty wonderful!"

"It's a plant for a new-type process for making aviation gas and synthetic rubber material from petroleum. It makes more gallons of better gas than any process ever did before. It makes both the gas and the synthetic rubber material at once, which is mighty important right now!"

THE FIRST "E" AWARDED TO PETROLEUM RESEARCH WORKERS

"It's a fluid catalytic cracking unit. Our Esso research workers who developed it call it a 'cat cracker.' But we did that long before the war, back in the 1930's—and that's why I call it a statue of liberty."

"It's a working monument to the power of American freedom and progress."

"It's another of those keys to vital war production that got discovered in the regular peacetime hunt for better goods for America."
