

Town and Farm In Wartime

REGISTER FOR BOOK 4 IN OCTOBER

Exact dates and places for registering for War Ration Book Four, which will take place during the latter part of October, can be obtained from local newspapers or radio stations. Persons registering must have a War Ration Book Three for each person for whom they are obtaining Book Four. Stamps labeled "coffee" in Book Four were printed before coffee rationing was discontinued. Any rumors that it is to be resumed are unfounded, OPA says.

OPA SETS APPLE CEILING PRICES

Apples for home consumption will sell at a season's national retail average of between 10 and 11 cents a pound. Maximum prices for apples were set recently as one of the first steps in OPA's program to extend control over the prices of fresh fruits and vegetables to keep down the cost of living. As in the case of eggs, prices will vary by the month to reflect storage and other charges.

ARMY-NAVY TEST FOR STUDENTS

The next qualifying test for the Army Specialized Training Program and the Navy College Program will be given in high schools and colleges, Tuesday, November 9, according to the War Department. The test is open to male graduates and high school seniors in their last semester who will reach their seventeenth birthday but not their twenty-second birthday by March 1, 1944. The test will provide an opportunity for those men to qualify for college training in studies for which the Army and Navy have vital needs. Graduates of the program will serve as specialists, technicians, and officers in the armed forces.

GALS TO GET BOBBY PINS

Twice as many bobby pins and hairpins, "necessary feminine items", will be produced during 1944 as at present, under a recent WPB action.

MORE AGRICULTURAL FERTILIZER AVAILABLE

Plans are being made to increase the supply of ammonium nitrate for use as an agriculture fertilizer, according to the War Production Board. The material has been so improved to prevent caking that orders received for September and October exceed the supply. Additional sodium nitrate became available for agricultural fertilizer last April when government capacity to produce it began to exceed the amount needed for military explosives.

SAVE WATER TO SAVE FUEL

Because it usually takes fuel to pump water, the U.S. government asks water users to repair leaky faucets and other leaky plumbing fixtures. Saving of water may also save on the manpower required to make it available as well as the chemicals required to treat it.

CAN GET NEEDED SHOES

Children who wear out or outgrow their shoes at a particularly fast rate and adults with extra shoe requirements need not suffer hardship because of the longer shoe ration period announced recently by OPA. If a child or adult needs shoes and the family quota of regular ration stamps has been spent, he may get a simple application form for a special shoe stamp from his local rationing board.

MUSIC CLUB MEETS
The Music Club met at the home of Mrs. J. P. Bryson last Saturday afternoon. A very interesting and enjoyable program was given.

The next meeting will be at the home of Mrs. Solomon Leatherman, November 13, at 2:00 p.m.

Mrs. J. P. Bryson gave her daughter, Louise, a birthday party immediately after the Music Club. Birthday cake was cut and many nice presents were received.

Mrs. L. J. Smith and daughter, Mrs. A. H. Wilen and Rebecca Nan Smith from Cullowhee spent the weekend with relatives here.

Mr. and Mrs. W. L. Ramsey and two children from Franklin, visited relatives last Sunday.

Mr. and Mrs. Chas. Carter from a Naval Station in Florida, spent several days last week with his parents, Mr. and Mrs. W. E. Carter.

Lime And Legume Seed Are Again Available

The Agricultural Adjustment Agency will again allow North Carolina farmers to draw upon their 1944 allowance for conservation materials, it was announced here today by the State College Extension Service.

Where a farmer has used his maximum 1943 allowance, he may get lime or winter legume seed out of his 1944 allowance, up to an amount equal to that of his allowance on 1943, the announcement said. This, it was explained, is to allow the producer to obtain all conservation materials he needs to get his land in shape for the even greater production demands that will be made on it next year.

If a farmer has not used all the conservation materials his farm has earned, through performing AAA practices, for 1943, he can get the materials in the 1943 year up until December 31. The farm program year formerly ended on October 31.

In addition, special crop payments, such as are made farmers for producing within their acreage allotments on wheat, cotton, tobacco and peanuts, also may be used to obtain conservation materials. This, said the announcement, should give the farmer a chance to greatly increase the use of lime and winter legumes during the next five months.

The Tripple-A has ordered 1,214,000 pounds of Crimson Clover from Tennessee, and more than 3,000,000 pounds of hairy vetch from Oregon. Austrian Winter peas and Italian rye grass will be ordered within 10 days. Farmers should immediately place orders for seed and lime with County AAA Committees. County Committees have arranged for local dealers to handle the distribution of seed.

National Forest Timber For Sale

The National Forest timber described below will be sold at public auction to be held at the office of the Forest Supervisor, Post Office Building, Franklin, North Carolina, beginning at 2 p. m., November 1, 1943. Award will be made to the one qualified bidder quoting the highest aggregate price for all species of timber required to be removed as sawlogs. Any quotation of less than the advertised price for any species will invalidate the entire bid. All live timber marked or designated for cutting and all merchantable dead timber located on an area embracing about 780 acres within the Upper Brush Creek Unit, Cullasaja River Watershed, Macon County, Nantahala National Forest, North Carolina, estimated to be 846 M feet, more or less, of yellow poplar, northern red oak, black cherry, white ash, basswood, cucumber, white pine, white oak, red maple, birch, chestnut oak, black oak, scarlet oak, chestnut, buckeye, and hemlock sawtimber; 300 units, more or less, of hemlock pulpwood, and 200 tons, more or less, of hemlock and chestnut oak tanbark. No bid of less than \$20.00 per M feet for yellow poplar; \$13.00 for northern red oak; \$10.00 for black cherry, white ash, basswood, and cucumber; \$8.00 for white pine; \$7.00 for white oak, red maple, and birch; \$4.00 for chestnut oak, black oak, scarlet oak, and chestnut, and \$2.00 for buckeye, and hemlock sawtimber; \$1.25 per unit (160 cubic feet) for hemlock pulpwood, and \$1.50 per ton (2,000 pounds) for hemlock and chestnut oak tanbark will be considered. Each participant in the bidding will be required to have in his possession certified or cashier's check in amount of \$1500.00 made payable to the Treasurer of the United States. The successful bidder will be required to deposit with his bid \$1500.00 to be applied on the purchase price, refunded, or retained in part as liquidated damages according to conditions of sale. The right to reject any and all bids reserved. Prior to date of auction, full information concerning the timber, the conditions of sale, and submission of bids should be obtained from the Forest Supervisor, Franklin, North Carolina. S30-2tc-014
