Chief?

THROUGHOUT the Southland, thousands of clear-eyed youngsters... schooled in the traditions that have made America what it is today... are busily preparing to bring new greatness to Southern industry, agriculture and commerce... and better living to all America.

The lad poring over his chemistry book will some day make marvelous new things from Southern minerals, woods, cotton and many other Southern products.

The farm boy with the "green thumb" will raise huge crops and fine cattle on his fertile native soil.

The boy with inventive genius will find the South eager to employ his ideas.

And the youngsters who thrill as our trains rush by will some day... as railroaders... help to bring better living to all America. For the Southern Railway System

will carry these products of peace with the same speed and efficiency and economy that it now carries Southern products to war.

Like all Southerners, we are now putting our might into the war to speed Victory and to help build a better, stronger South.

Like all Southerners, we are also doing our part to make the South a land of opportunity for the youngsters who are growing up today.

Ernest E. Norris, President

SOUTHERN RAILWAY SYSTEM
