#### V-Mail Assures Quick Delivery

V-mail ALWAYS goes by air regular air mail does not. That is one of the reasons why the Army is constantly urging the public to send V-mail, states Lt. Col. Hartley B. Dean, Fourth Service Command postal officer. "Mail that is ear-marked 'air mail' does not always go by plane for the simple reason that the increasing overseas troop strengths, urgent demands for air cargo space coupled with adverse flying conditions during the winter months does not give promise of improvement in the transportation of overseas air mail. V-mail always is dispatched by plane.

"Some people do not understand why some V-mail received in this country arrives in the original form and not microfilmed. This is true because some times when the planes are returning to the United States they have more cargo space available than on the out-bound flight. Thus V-mail delivery becomes even quicker when time doesn't have to be utilized for microfilming."
