Memorial Tribute Paid Mrs. M. McA. Martin

Through Mrs. W. S. Davis white flowers were placed on the altar at the Episcopal Church of the Incarnation Sunday morning by McCoy H. Martin of Jacksonville, Fla., in memory of his mother, the late Mrs. M. McA. Martin, on the second anniversary of her death. Mrs. Martin's favorite hymn and a prayer were read by the Rev. Wm. Baker.

Also in memory of his mother, who served many years as summer organist at this church, Mr. Martin has made a very generous gift toward the purchase of a six hundred dollar organ for the Church of the Incarnation. This gift, along with a number of others, made it possible to send in the order for the organ several weeks ago.

Hudson Library Open For Summer

The Hudson Library began its summer schedule on Monday, and will observe the following days and hours: Monday, Wednesday, and Friday mornings from 10:30 to 12:30, and Tuesday, Thursday and Saturday afternoons from 4 to 6 o'clock.

ATHLETES FOOT ITCH
Stop It In 5 Minutes
Successful treatments must be more than surface applications. Most remedies do not penetrate sufficiently. Requires a STRONG PENETRATING MOBILE liquid. Alcohol is VERY MOBILE. We suggest Teal. It contains 90% REACHES MORE GERMS FASTER. Feet it PENETRATE. Most druggists have the test size. Small supply just arrived at Angel's Drug Store.

The half hour later opening and closing time in the morning schedule has been found by the librarians to be more convenient to most of the summer visitors who patronize the library. Miss Cora Miltimore and Miss Barbara Zoellner are volunteer assistant librarians for the summer.

A meeting of the Trustees of the Library Association was held last week and plans made for the season, which will include a number of benefits.

Dr. Couch, Director Of Weyman Laboratory

The appointment of Dr. John N. Couch of Chapel Hill as director of the Weyman Laboratory for the summer has been announced by Dr. Ralph M. Sargent, president of the Highlands Museum and Biological Laboratory. Dr. Couch is head of the botany department at the University of North Carolina, and is expected to be in charge of the biological research at the laboratory during the months of July and August. Since the first of May, work at the laboratory has been carried on under the capable direction of Miss Thelma Howell of Wesleyan College.

The family of the late Dr. E. E. Reinke of Nashville, Tenn., have offered Dr. Reinke's entire scientific library to the museum and laboratory, and the trustees plan to install this library as a memorial to Dr. Reinke, since he was the chief founder and first director of the laboratory.

Dr. Carodemos Lectures

Dr. Peter Carodemos of Clemson College will give a lecture on "Plastics" at the museum Friday evening, July 13, at 8 o'clock. Dr. Carodemos is a worker in the field of plastics and will speak of the future of this important material, and what the development of the plastics industry may mean to the Carolina region.

On Thursday evening of this week the Museum presented a showing of colored slides of Blue Ridge Mountain views by Ralph M. Sargent. Children's nature-study classes began at the Museum Tuesday morning and will continue on Tuesdays through the months of July and August.

Open To Negroes

The announcement of Thursday matinees at Highlands school theatre for negroes who are here with their white employers, has been made by Prof. O. F. Summer, theatre manager. Mr. Summer said also that the center section of theatre seats will be reserved for white patrons on Thursday afternoons.

Extra Teacher For Highlands School

The allotment of an additional high school teacher for Highlands school and the re-election of the eleven former teachers have been announced. Re-elected teachers are the Misses Veve and Nina Howard, Miss Lois Keener, Miss Sally Stephens, Miss Ethel Calloway, Miss Virginia Edwards, Miss Marion Lester, Mrs. Estelle Stegall, Mrs. Annie W. Pierson, W. C. Newton and O. F. Summer, principal.

With the resignation of Miss Stephens there are two vacancies on the staff yet to be filled. Miss Stephens was an excellent teacher and a splendid school lunchroom supervisor. Her resignation is regretted by the school authorities.

Real Estate Office Opens In Highlands

Mr. Norton has been one of the leading surveyors of this section for the past 25 years and Mr. Hicks is the former owner and operator of Highlands Barber Shop.

Among the larger sales made by the new firm the past week were the Ben Thwaite property on Main Street bought by H. S. Talley, and the Turner Dorris property, former Highlands Hardware building, on Fourth street sold to C. E. Mitchell and Wade Sutton. The use of the purchasers plan to make of their new properties has not been disclosed.

Large Crowd Attends Museum Opening

More than 150 guests attended the summer opening of the Highlands Museum Sunday afternoon. Prominent among the special exhibitions was a display of miniatures and oil portraits by the artist, Mrs. B. E. Fernow of Clemson, S. C. Particularly appropriate were the portraits of the late Henry W. Sloan, a founder and trustee of the Museum and Laboratory, and of the late William L. Lippincott, secretary of the corporation until his death in 1942.

Other special exhibits included a collection of mountain insects, made by Hugh A. Sargent. Old time residents of Highlands were delighted to view a copy of "The Highlander" for 1886; the first paper printed in Highlands which is of historical interest to the community.

Refreshments for the afternoon were in charge of Mrs. Clark Foreman. Serving at the table were Mrs. Joe Massey and Dr. Jessie Moreland. Flowers were contributed for the occasion and were arranged by the Misses Marguerite and Clarissa Ravenel.

LUKE PICKLESIMER WRITES FROM GERMANY

Mr. and Mrs. Picklesimer, of Highlands, have received the following letter from their nephew, Pfc. Luke Picklesimer, who is now serving in Germany. Newburg, Germany, May 28, 1945:

Dear Uncle and Aunt,
How are you both? I'm always feeling good. As restrictions are liberal, I can tell you where I am at present. I'm in Newburg, Germany about 200 miles east of the Rhine. I'm waiting for transportation home and I hope it will be soon.

We are living beside the big Stadium where Hitler was going to dictate peace to the world. This is the most beautiful country I was ever in. Why they wanted to fight beats me. Their towns and homes are flat on the ground. If we could talk to the German people we sure would be treated good, but if we are caught talking to a German it costs us \$65.

I have won two battle stars over here. Those and the time I have in the army gives me 102 points, so they have got to let me go.

I have found one man who knows our folks in Amsterdam, Holland. If I can I'm going to

his parents, Mr. and Mrs. Walter Reese. Another son, Sgt. Coleman M. Reese, who has been overseas combat duty for the past three years is also here for a visit.

look them up. Could you send me some information on them? I never thought about them before the war because I didn't think I'd ever be over here. Now is the time to see them for I might never get another chance. This man speaks English and he told me they did also. He told me they were very rich. I wouldn't care about that but I would like to see them.

I have been over all of France, Belgium, part of Holland and Germany, now I would like to go and take a look at Berlin, and then come back to the good old U. S. A. to stay the rest of my life.

I think I will be home in six months, and will tell you more when I get there.
