# United War Fund Drive Lagging In Macon County

## Total Of \$1211 Collected; Final Rites Held For **Highlands Reports More** Than Half This Sum

The middle of next week will see the termination of the United War Fund drive in Macon county, and unless generous contributions are made on or before the closing date, No-vember 8, it looks as if our county will register its first failure—and a bad one at that —in the various war drives.

Although follow up letters were sent October 22 to all solicitors less than ten per cent had made any report on a re-ply postal by the end of the past week. The total tabulated on Monday revealed that only \$1211 had been collected. The best report came from Highlands which reported \$576, or more than one-half of that" from all sections of the county. An intensive drive will be made in Highlands this weekend in an effort to raise its total to \$1,000, or one-fourth of the quota for the county. The poor showing is not a

credit to any community and makes it evident that the majority of the citizens, and perhaps some of the solicitors, have lost all interest since the war is over. Yet it is not over for more than three million of our boys still overseas until they are mustered out back home. Nor is it over for the millions of war-ravaged people who are facing a grim winter of starvation-a continuing battle against poverty and disease.

As stated in previous issues this is the final War Fund drive and the national goal of \$115,000,000 is designed to cover USO, and all combined relief work from October 1, 1945 to December 31, 1946. More than half of the sum will be allotted to the USO and United Seamen's Services, and to quote Fibber McGee and Molly: "We gave them a warm hand when they left; we must not give them a cold shoulder now."

# **Farmers Urged** To Use Materials Under

# 1945 Program Before December 31st

With the end of the 1945 Program Year just two months off, Robert Fulton, Chairman, Macon County AAA Committee, urges all farmers who have obtained conservation materials under the 1945 Program to exercise every possible effort to use these materials in accordance with good farming prac-tices before the deadline, December 31.

Upon using all materials, a report should be made at the Macon County AAA Office by the farm operator. "If all the farm allowance has not been taken up in conservation materials and producers are eligible to receive payments, applica-tions for payment may be sign-ed at the same time," he explained.

The Triple-A chairman also urges producers having 1944 conservation materials transferred to the 1945 program to make proper use of it in order to obtain full credit and avoid a double deduction of the value of the materials.

Mr. Burrell said he and other dealers in the area were con-fident that the 1946 Chevrolet will maintain the record of top volume sales, which Chevrolet reached in 10 of the last 11 prewar years of automobile production, to meet the unprecedented pent-up demand for new cars.

Following the same policy as in former years, the new Chev-rolet will be displayed simulaneously in dealers' showrooms throughout the country, Mr. Burrell said. Radio and local newspaper

# Legion Auxiliary

### Has Outstanding Record Through Past Year

The American Legion Auxiliary, Macon County Post No. 108, which meets once each month, has been active in civic and public activities throughout the past year. The membership of this organization is compris ed of the wives, mothers and sisters of the veterans who participated in the wars of this country. A few of the outstanding con-

tributions which the organiza-tion has given the past year are: Baskets of food last Christmas to needy families of Macon county, 118 Christmas gift packages wrapped and sent to the boys at Moore General Hospital, cookies, cakes and sweaters sent to the boys at Oteen Hospital. From the organization's funds, gifts of money were sent to hospitals for educational work, hospital libraries and a three fold program for rehabilitation. The Macon County post was the first in the state to send a contribution for the purchase of records to be used in war zones. Gifts were made to the American Red Cross and United War Fund, and members gave their time helping with the bond drives. One of the outstanding con-

tributions which has caused more public comment than any other are the wooden crosses on Rankin Square erected for memorial day in honor of our

dead heroes. The Poppy Day sale was a complete success and the people of Franklin vicinity and Highlands responded nobly. It can well be added here that the money receive from the poppy sale is used for the re-lief of children and families of deceased and disable veterans an for rehabilitation work.

### Favorable Out Come Of Labor Survey Most **Important Factor**

\$2.00 PER YEAR

Elsewhere in this paper is an announcement concerning the possibility of a nationally known industry locating a plant in the town of Franklin. This an-nouncement is in connection with a survey of the available labor in and around Franklin, and it is urged that every girl or woman interested in working in a plant such as describ-ed in this announcement take advantage of this opportunity by visiting one of the regis-tration places between the hours of 9 a. m. and 5 p. m., Monday, November 5, and register with the representative there.

Recently representatives of the town of Franklin, the Lions and Rotary Clubs were invited to visit a plant owned and operated by this Company elsewhere, and reports from these men are very encouraging.

The management of the plant visited by these men made it very plain that his Company had not definitely decided to locate a plant in Franklin and did not want the people here to get any idea that it had. However, if there is an available labor supply and a suitable site for the plant, then Franklin stands as good a chance for the plant as any other location.

The main solution now is whether or not enough people want to work in the plant if it comes here, and that can only be answered by the number of people who register on Monday, November 5. If we do not have the labor available, we have no chance for the plant.

ed his parents in Franklin on a short furlough prior to his discharge, and while here he gave an organ concert in the Methodist church to an appreciative audience.

His program was as follows: Chorale Preludes by J. S. Bach, Jesu, Joy of Man's Desiring; In Dulce Jubilo; Mystical Adora-tion; All Men Must Die; and They Who Trust in God.
