ADDINGTON DAIRY FARM

"Sure, I know what I'm doing!"

I'm not saying the Army is the right career for everyone, any more than is medicine or farming. There are drawbacks, just as there are in any occupation, and it involves sacrifices—but what career doesn't? Here's the way I look at it: I was in for four years. That gives me a \$200 enlistment bonus—\$50 for every year I served—and I've already received \$300 mustering out pay. I'm reenlisting in time (within 20 days) so I get back my old rank: staff sergeant. And that pays me the equivalent of \$55 a week, according to the best economists in the country. I'm signing up

for three years, so I pick my arm of service. Right off, I get a 90 day furlough with pay plus training. The folks at home will still get their allotment checks every month and I'll be eligible for everything under the G.I. Bill of Rights three years from now. The Army will give me full credit for my past service and there's retirement in 20 or 30 years without it costing me a cent. Plenty more benefits, too, which your nearest recruiting office can tell you about. Here's the address:
