Don't Blame Your Dealer if You Can't Get G-E Appliances and Radios

It's not the dealer's fault. We don't think it's our fault. Maybe it's nobody's fault. But here's what happened:

Here's how fast G. E. and its affiliated companies were making and shipping things for you:

	OCT.	NOV.	DEC.	On hand Dec. 31, 1945
IRONS	60,440	67,564	85,968	2½ days' production
CLOCKS	181,998	177,681	256,038	2½ days' production
REFRIGERATORS	12,755	17,577	28,432	4 days' production
WASHERS	3,068	4,672	6,874	4½ days' production
RANGES	3,056	8,973	8,996	3 days' production
RADIOS	85	5,129	9,401	1½ days' production
TOASTERS		312	2,386	2698 (No shipments see made because production was inadequate to provid samples for dealers).

Holy communion. 2 p. m.—First and second Sundays, evening prayer. 3 p. m.—Church school. Friday: 5 p. m.-Litany

Out of the 2,485, 138 appliances manufactured in 1944 and 1945, General Electric shipped 98%.

AFTER the war ended, we weren't able to get back into production of some appliances as soon as we had hoped, and production rates weren't as high as we had hoped. A number of unforeseen things like material shortages made the job harder.

But there were only 120 days between V-J Day and December 31, 1945, and in those 120 days we partly reconverted our factories from war to peacetime goods and got production started. During the year we turned out 2,313,791 electrical appliances.

We shipped these appliances out practically as fast as made-so fast that at the end of the year more than 98 per cent of those we'd built since reconversion began were out of our factories. Most of them were in the hands of users.

Then, on January 15, 1946, our plants were closed by the strike. Not a single electric home appliance has been built or assembled there since. And, because our warehouses are practically empty, your dealer won't be able to obtain any more until we can get back to making them.

We want to get back to producing as fast as possible. The manufacturing organization is set up; the machines are ready, waiting to be set in motion. These factors will help us to do an

even faster job then we did in the months before the strike.

But we can't pick up production quite where we left off. Production lines are too complicated for that. A great many things have been dislocated by the strike.

When the strike is over, and the refrigerators and toasters and radios you've been waiting for begin to come off the lines again, we'll get them into hands of our dealers just as fast as we can. They'll be competitive in price. They'll be General Electric quality.

So, please don't be impatient with your dealer-or with us.

GENERAL & ELECTRIC
