### One Driver In 20 To Die In Mishap In 5 Years

Atlanta.—The retiring Georgia safety director has sounded a rather grim warning.

He thinks that within five years one out of 20 persons now driving an automobile will have been killed in a traffic accident. The official who gives us this to think about the next time we get out the family car is Major Charles Williamson. He is stepping into the position of director of the state corrections department. As a means of promoting safer driving, Williams has three suggestions:

- No. 1—Safe driving courses in the high schools.
- No. 2—Double-lane highways.
- No. 3—Separate highway systems for trucks.

Mrs. Paul Potts, of West's Mills, underwent an operation at Angel clinic Monday.
