Mercury Drops To 28 As Highlands Has Snow Storm

Following on the heels of weeks of lovely spring weather, Highlands was visited by a light snowstorm Friday, the huge, soft flakes falling thick and fast for a while just before dusk. Cars that had been left out over night and rooftops glistened with a skim of snow in Saturday's early morning sun, when the thermometer registered 28 degrees. After the disagreeable, March-like winds of Saturday, the weather returned to a more normal state.

FAVORS FEDERAL AID FOR SCHOOLS

"I favor Federal aid to our schools. In my opinion Federal aid is the one hope of standardizing and equalizing education and teachers' pay throughout the nation. The economic conditions of the South will not permit us to match the great industrial wealth of the North and East except through Federal grants. If this can be done without the Federal Government dictating our school policies, I believe it will be a great educational move in behalf of our entire Southland."
