A Statement to the Democratic Voters of Macon County

I believe the people are entitled to know how a candidate stands. I, therefore, make the following statement to the Democratic voters of Macon County:

1. If nominated and elected as Macon County representative, I will go to Raleigh as the representative of all the people of this county, and will work for what I believe to be to the best interests of the state and the county.

2. I will, as far as humanly possible, be guided by the wishes of the people, who ARE the government.

3. Honesty compels me to say frankly that there are many things I might wish to do which I cannot. Such matters as highways, schools, old age assistance, and control of alcoholic beverages are, generally speaking, state-wide, and policies on these matters are determined not by one, but by a majority of the members of the General Assembly. I can and do promise, however, to work for better secondary roads throughout the state. I can and do promise to do all in my power for better schools, in this and every county in the state. I can and do promise to cast my vote for a more liberal allowance for old age assistance. And I can and do promise to work for the proposed referendum on alcoholics—the people have a right to decide.

4. I am told that questions have been raised about my record at the draft board. That record is no secret. I was under the draft age in World War I. Never did I ask the draft board for so much as a day's deferment in World War 2. I was classified as I-A for a long period, and expected and was prepared to go to the armed forces. The only reason I did not was that the top age was lowered within a month of the time I would have been drafted, and I was classified as over-age.

5. Whatever the outcome of the Democratic primary May 25, I will exert every effort to secure the election of every nominee of the Democratic party in the general election.
