the letter of the Stabilization Administrator to the Secretary of Agriculture of January 29, 1946, this timber will be sold at the appraised prices stated above. The purpose of this notice is to give all interested parties an opportunity to bid at these appraised prices. Bids in excess of these stated prices will be reduced to the prices herein stated. In the event of more than one bid, award will be made by lot or otherwise in the interest of obtaining maximum production of forest products needed in the Reconstruction Program. The right to reject any and all bids is reserved. Before bids are submitted, full information concerning the timber, the conditions of sale and the submission of bids should be obtained from the Forest Supervisor, Franklin, North Carolina.

Some 4,300 exploratory oil States last year, of which 11.6 wells were drilled in the United per cent produced oil.

SINCE I am a candidate for the Democratic nomination for the office of Sheriff, I think it only reasonable that the Democrats of Macon County should want to know about my record as a Democratic voter.

The records of the register of deeds office, open to every citizen, show that I have been registered and have voted in every Democratic primary and every general election since I came of age.

The voters have a right, too, to ask how the office of sheriff will be operated. If elected, I pledge my best efforts to obtain the services of deputies who have the respect and confidence of the public. They will be selected on a basis of worth. I might add that none of my family will be employed in the office.

Your earnest consideration of my candidacy will be appreciated.

**A Statement to the Democratic Voters of Macon County**

I believe the people are entitled to know how a candidate stands. I, therefore, make the following statement to the Democratic voters of Macon County:

1. If nominated and elected as Macon County representative, I will go to Raleigh as the representative of all the people of this county, and will work for what I believe to be to the best interests of the state and the county.

2. I am now and have been in business for myself since March, 1946. I am not in any way connected with any other enterprise. If nominated and elected, I will to the best of my ability, represent all of the people of Macon County without favoritism or preference for any individual, faction, group, corporation, or business.

3. Honesty compels me to say frankly that there are many things I might wish to do which I cannot. Such matters as highways, schools, old age assistance, and control of alcoholic beverages are, generally speaking, state-wide, and policies on these matters are determined not by one, but by a majority of the members of the General Assembly. I can and do promise, however, to work for better secondary roads throughout the state. I can and do promise to do all in my power for better schools, in this and every county in the state. I can and do promise to cast my vote for a more liberal allowance for old age assistance. And I can and do promise to work for the proposed referendum on alcoholics—the people have a right to decide.

4. I am told that questions have been raised about my record at the draft board. That record is no secret. I was under the draft age in World War I. Never did I ask the draft board for so much as a day's deferment in World War 2. I was classified as 1-A for a long period, and expected and was prepared to go to the armed forces. The only reason I did not was that the top age was lowered within a month of the time I would have been drafted, and I was classified as over-age.

5. Whatever the outcome of the Democratic primary May 25, I will exert every effort to secure the election of every nominee of the Democratic party in the general election.
